

# LIONS CARNIVAL FRIDAY NIGHT

## CHAS. BROMLEY CALLED HOME

Former Town Engineer And Clerk — Built The First Paved Street In Grimsby — Rebuilt Water Works System — Built The Water-craft That Subdued The German Submarine—Started Out To Be A Newspaper-man.

Charlie Bromley is dead. While the news of his death did not come as a distinct surprise to his great legion of friends and acquaintances throughout, not only the Fruit Belt, but through other sections of Ontario, still it had a numbing effect.

Only recently returned, with Mrs. Bromley, from a 15 year sojourn in Bermuda, he had renewed his old acquaintances in the district and up until two weeks ago was his same old chipper self. Then a recurrence of the trouble that had him low in Bermuda occurred and he was taken to West Lincoln Memorial hospital, where with fine medical attention and excellent nursing care he soon rounded too and was able to return home last week. Early Wednesday morning he suffered an attack and despite medical aid he passed to his Maker.

Born in Waterford, Ireland, on February 10th, 1866, he moved to England with his family when still just a child and as a youth, decided that his spot was in the Fourth Estate and he therefore secured

## Postal Information Re Christmas Mailing

Avoid Delay In Delivery By Mailing Greetings And Parcels Early — Postal Staffs Are Still Undermanned.

Your Post Office is facing a tremendous flood of Christmas mails—trained staffs are still depleted—thousands of new employees must be temporarily engaged to cope with the rush.

You can help maintain efficient mail service by simply addressing and packing your mail properly and BY MAILING EARLY.

It is your own interests to co-operate.

Please tie your local and out-of-town mail in separate bundles—with stamps in upper right corner. Advantages of sending your greetings first class mail—may be sealed—more personal—may contain written messages—preference in delivery—will be re-directed or returned if undeliverable.

3 cents local—4 cents elsewhere. Standard size envelopes and cards run swiftly through cancelling machines and speed delivery. Over-size cards or envelopes more than 4 1/4" x 9 1/4" or under-size less than 3" x 4" have to be set aside for slower hand-cancelling.

Check to see that you address all mail correctly and legibly—for cities always include street name and house number.

(Continued on page 13)

## Our Christmas Number

Our issue of Thursday, December 19th, will be our Special Christmas issue. It will be 20 or more pages with a special Christmas Time front page and carry stories that are suitable for the Yuletide season.

This is the issue that we always start gift subscriptions of The Independent. If you wish to send The Independent for a year to a relative or a friend, a gift that they receive every week in the year, then be sure and bring in the subscription early so that they may receive this Christmas number.

## And Her Golden Hair Was Hanging Down Her Back

This class of school pupils faced many a hot sun and many a wintry blast, as they trudged along dust laden, or snow covered roads in order to get to the Fountain of Knowledge.

In fact they really went to a Little Red Schoolhouse. What class is it? What school did they go to? How long ago? Happy to say the great majority of this class are still alive and we expect to receive a lot of correct replies.

## NEW SPRAY CALENDARS TO BE AVAILABLE EARLY IN JANUARY

Newer Types Of Insecticides Proved Better In Some Cases And Not So Good In Other Cases, Than The Old Types — Economic Control Of Some Pests Is Now Possible.

Another year's experimental work in control of insect pests of fruits and vegetables has been completed. Observations have been made, not only where definite experiments were being carried out, but also where definite experiments both large and small, have been sprayed or dusted by the grower himself as recommended in this year's fruit and vegetable protection calendars. Particular attention has been focussed on some of the newer insecticides. These have proved better than the older materials for some insects and not as good for others. Economic control of some pests is now possible for the first time, says Professor H. W. Goble, Department of Entomology, Ontario Agricultural College.

Each year a special committee

## THEAL BROS. INSTALL FROZEN FOOD LOCKER

Housewives Now Have Opportunity Of Enjoying Summer Fruits And Vegetables In The Middle Of Winter.

Grimsby's harried housewives will no longer have to worry about the problem of providing a variety of fresh vegetables and berries for their wintertime meals after they discover the new quick-freeze cold storage locker in Theal's grocery. Recently installed as a service to his customers, Richard Theal, the proprietor, revealed that the new equipment will enable local residents to have fresh Ontario-grown garden produce on their tables throughout all off-seasons.

Long recommended by the Departments of Health and Agriculture as an economical means of obtaining the necessary vitamins during the

## New Type Spray Gun Being Introduced Here

Claimed That It Will Do A Better Job With Less Material Than Present Guns In Use.

Making its first appearance in Grimsby, and as far as we know in Canada, a revolutionary new type spray gun called the Windmaster has been introduced into this district and will be on sale very soon by a new business starting up with headquarters at Beamsville, called the Orchard Equipment Service.

This firm will handle a complete line of orchard rotary tillage equipment and will operate this business from a new show room in Beamsville.

One of the new model Windmaster guns was tested to Cecil Bell of Grimsby Beach, who does a considerable amount of the custom spraying in that area, to make operation tests and report on its performance.

## Luminous Fabric May Replace Button Signs

Department Of Highways Experimenting With New Type Of Sign That Stop Thieving.

An experiment which may eventually result in the signs from all of all reflector button present be replaced by luminous fabric signs is being carried out by the Department of Highways. On No. 3

The old type signpost through highway from HaCorner were replaced by luminous fabric signs. A moved last week according to drive new type which, actual road, shows cars who were over the light from up much brighter in the reflector car headlights than covered with

The new signs are of luminous fabric which is said to with-stand all kinds of weather conditions. Ordinary signs are made of metal and are painted in white. They are not as bright as the new signs.

"This may be an experiment," a Department continued vandalism Saturday signs," a Highways new signs "There is nothing on fire in the to be punched out or and have added that the signs are as stand-ard at this time.

The same material is used by one of the United States bus lines as a big reflector on the rear end of all coaches. It is also in use on some New York and other state roads. One driver said: "It makes the button signs look like a has-been."

## GRIMSBY BIBLE SOCIETY WAS ORGANIZED IN NOVEMBER 1854

## Legion Is Bringing Santa Claus To Town

Merry Old Soul Will Entertain Wives And Kiddies Of Veterans At High School Auditorium.

Santa Claus is coming to town. He is going to have a whole band of musicians, magicians and good-natured fellows all with him. He is coming to entertain the wives and kiddies of the war veterans of the district and they are all invited to attend and meet the merry old soul.

West Lincoln branch, Canadian Legion in conjunction with The Independent are bringing the merry old fellow to town and he will be in the High School Auditorium on Wednesday evening, December 18th, starting sharp at 7.30 p.m. All wives and children of veterans are invited to attend and hear the fine music and see the fun that Santa and his gang will present.

There will also be candies, oranges and golly knows what for the kiddies and at the close of the entertainment there will be lunch served for all.

Remember the date—Wednesday evening, December 18th—7.30 p.m. High School Auditorium.

## Prosecutions Are Bound To Follow

Youth In The West End Better Watch Their Step — Idiots From Out Of Town Due For A Big Jolt — Law And Order Must Be Maintained.

From complaints received by The Independent from citizens and from reports of Chief of Police W. W. Turner, the Fruit Belt is not as yet entirely free of young idiots, or semi-imbeciles that think it funny to do things that are not only destructive but dangerous to the populace at large.

On upper Main street we have complaints of boys throwing stones at one another, and within the past week or two near accidents have been narrowly averted. Moreover The Independent and Chief Turner have had several complaints from Main West, about bicycle riders on the sidewalk who utterly disregard the pedestrian, particularly the children.

Chief Turner has on more than one occasion tried to nab these bicycle riders, but like all Canadian youth, they are smart, and they can see that blue uniform coming a mile away, therefore when the Chief arrives on the spot there is nothing happening.

There is another bunch of half-witted youths from the township and other points in the district who will

(Continued on page 13)

## Seventeen Men And Six Women Attended The First Meeting In The "Brick Church"—Bibles Were Purchased In Quantities And Distributed To The Populace.

Ninety-two years ago, on November 15th, a branch of the Upper Canada Bible Society was formed in Grimsby. The organizing meeting was held in the "Brick Church", (Presbyterian) called by the Rev'd Lachlan Taylor who, we may suppose, acted as chairman.

William Beamer was the first president, and supporting him were Samuel Russ, vice-president, J. D. Fitch, depository, and Dennis Palmer, secretary-treasurer, together with a committee of eight, plus the local ministers.

Seventeen men and six women attended that first meeting in the Brick Church, and they straightway contributed the sum of Seven Pounds, two shillings and six pence to the cause.

We quote Section No. 8 of the Laws and Regulations drawn up on that day, "That the whole of the subscriptions and donations received by this Society shall be applied, after deducting incidental expenses, to the purchase of Bibles and Testaments from the Upper Canada Bible Society to supply this

(Continued on page 7)

## LINCOLN LOSES A FINE JUDICIAL OFFICIAL

Magistrate James H. Campbell Retiring From Office At The Age Of 75 Years — Respected By All.

One of Ontario's oldest and most widely known magistrates, James H. Campbell, of St. Catharines, has been retired from office at the age of 75 years.

A former partner in the law firm of Lancaster & Campbell, St. Catharines, his partner being the father of E. H. Lancaster, K.C., present crown attorney for Lincoln County, Magistrate Campbell was appointed to office in 1908, and has presided since that time at St. Catharines and at other points in Lincoln.

From Cecil Rayment, deputy attorney-general, it was learned Tuesday that no appointment to fill the vacancy caused by Magistrate Campbell's retirement has yet been made. Magistrate J. B. Hopkins of Niagara Falls and R. J. Gillen of Brantford will officiate temporarily.

Described by the attorney-general's department as one of the "real old timers," Mr. Campbell said today that while it was possible he might resume private law practice, he had not fully decided. He mentioned that he had gone through Osgoode Hall at the same time as Magistrate H. A. Burbridge of Hamilton.

## CAPACITY AUDIENCE ATTENDS HIGH SCHOOL COMMENCEMENT

Prof. L. H. Cragg of McMaster University Delivers Stirring Address to Graduates — Miss Joan Eaton Delivers Valedictory Address — Medals And Awards Presented — Wonderful Entertainment Provided.

(By BRYDON)

A capacity crowd jammed the Grimsby High School Auditorium on Friday evening last to see the Annual Graduation Exercises. The program was opened by the singing of "O Canada," a Bible reading by Mr. Smith, and the Lord's Prayer.

Miss Jeannine Nelles then entertained the large audience with the "Butterfly Waltz," a beautiful piano solo.

One of the features of the evening was the Valedictory Address by Miss Joan Eaton. Miss Eaton caught the interest of her audience by recalling her first days in Grimsby High School. She then traced briefly her school life from first to fifth forms. This account included many amusing incidents and recalled many happy days to all the Graduates.

Miss Eaton ended her address by advising all the pupils of the school to take an active interest in their school life and to finish their education.

Miss Eaton's address was followed by the Presentation of Diplomas by Mr. T. L. Dymond, the president of the B. of E. The Graduates this year wore dignified black surplices with red carnations for the boys and white for the girls. The result was a very picturesque but dignified ceremony.

GRADUATES WERE AS FOLLOWS  
Secondary School Graduation Diplomas

Garth Bedford, Elaine Brownlee, Douglas Cole, Shirley Cornwell, William Farrell, Muriel Gracey, Sylvia Graham, Joan Greig, Jane

## RCAF VETERAN WORKING OUT HIS OWN REHABILITATION IDEA

## Chief Le Page Issues Warning To Citizens

Should Be More Careful With Draught Pipes On Gas Stoves And Heaters — Use Care In Thawing Pipes.

Fire Chief Alf. LePage draws the attention of The Independent to that fact that considerable carelessness on the part of residents is creating a fire hazard in both the town and the township.

He cites the fact that two of the most recent fires have been the direct cause of either thoughtlessness or downright carelessness on the part of householders. Not only was the fire hazard great, but in case of this kind there is also the great liability of death through asphyxiation.

The cases in point were where residents using natural gas stoves and natural gas heaters just cut a hole in the lath and plaster and put the draught pipe from the stove or heater into it. They do not carry it on to the outside. The fumes just go up between the partition. These fumes will accumulate and have been known to cause death. In the local instances they just caused fire, which fortunately occurred in the day time and the damage was negligible. Had they occurred at night no one knows what the result might have been.

Now that cold weather is here the Chief also advises citizens to be very, very careful of fire where they are thawing out pipes. It does

(Continued on page 7)

Douglas Scott Despite Material Shortages Has His Own Manufacturing Firm Well Under Way — Turning Out Fishing Tackle For All Points In Canada—Expects To Employ 35 People In Time.

Born of an idea that came to him while returning from an operational "sweep" over the English channel, Douglas E. Scott, 35-year-old local RCAF veteran, is well on the way to the completion of his personal rehabilitation problem.

Since January of this year when it commenced operations, the Scott Fishing Tackle Company, of which he is owner, has established itself as the leading Canadian producer of precision-made lightweight fishing rods. Manufactured from imported Tonkin cane, Mr. Scott's rods have received highly favourable comment for their strength and durability from anglers as far away as British Columbia and Nova Scotia.

At present, due to the scarcity of imported bamboo, Mr. Scott and his associate, Harvey Lambert, have been concentrating on the manufacture of fly and casting rods. Next month it is expected that the firm will branch out to include production of an English type fly rod, which utilizes an all cork grip in the butt section instead of the present half-metal piece. Although 8 1/2 ft. in length, this new rod will weigh only four ounces.

Prior to the war, Mr. Scott spent eight years with the Horrocks-Is-

(Continued on Page 7)

## Will Take A Holiday

Other weekly newspapers miss an issue throughout the year. Usually in the summer time. It has not been a regular custom with The Independent to do so, but this year we are going to take a holiday.

What with heavy newspapers, heavy job work, particularly rush Christmas work and then on top of it all a great mass of municipal printing, we are going to give our staff a rest on Boxing Day, the day after Christmas.

The Independent will not be published on Thursday, December 26th, the day after Christmas. Do not let this deter you from sending in your personal items of Christmas visitors and the goings and comings of friends. We will print them all with our personals of the New Year's holiday in our issue of Thursday, January 2nd. The day after Boxing Day, Friday the 27th, telephone in your Christmas personals and social items.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

## FACTS & FANCIES

Frank Fairborn, Jr.

Scene: A store depleted of all its stock. Time: Afternoon of December 24. Cast: Last minute shoppers hoping to buy Christmas presents. Story: They are disappointed.

### MAKE THIS CHRISTMAS SEASON PLEASANT

Everyone is always busy at Christmas time. Mother runs down town in a hurry to get more supplies. Sister has forgotten to buy a few presents and rushes madly into the store to see what may be had at the last minute. Brother, who never does do anything about it until the last minute, tosses on his hat and coat and sallies forth to see what he can beg, borrow or steal in the line of somebody else's time for the consideration of his Christmas shopping problems.

In the post office pandemonium reigns. Everybody is buying stamps and licking them and looking for American declarations; last minute parcels cram nearly all the available space and sometimes the crowd is good natured and sometimes not, but it is always there before Christmas, milling and mulling around in the stores and on the streets.

Every year we make resolutions about shopping early and avoiding the rush, and every year Christmas catches up with us once more and finds us unprepared, and indeed something of the heady excitement would be lost if there were not some last minute bustle and scurry.

But all this is no excuse for thoughtlessness. There is no reason why we should not be polite, no matter how hurried we may be. There is no excuse for snapping at people in stores who are doing their best to wait on us and no reason why we should not remember little things like taking our keys to the post office and ordering early in the morning, and not looking at a lot of things we know perfectly well we don't want.

This is what spoils the Christmas spirit for all of us—just this little lack of consideration for the feelings of others which we expect ourselves but too often forget to give in equal measure.

This Christmas, which is the first relatively happy one we have had in a long time, will be a good time to make a new resolution, that if we haven't shopped early we will at least shop pleasantly and considerately for the remainder of the pre-Christmas season and leave behind us a real feeling of good will to season the holiday which comes to all of us but which comes late to the many people who work early and late to fulfil our holiday needs.

### NOT MANY OF THEM

Not long ago a friend of ours, a working man, found a purse containing important papers, ration and identification cards and the like, and a pay cheque. It held also some thirty dollars in cash. Our friend took some trouble to find the owner, and when he had found her she offered him a \$10 bill. "No, lady," he said, pointing, "this 'un'll do me," and he accepted a \$5 bill.

We wonder how many people out of a hundred would have returned the purse. Quite a few of them, we suppose, would have mailed her the cheque and the papers. Quite a few would have destroyed the cheque and the papers. Two or three might have tried to cash the cheque. A good many more would have accepted the \$10 and thought that they were being but meagrely rewarded for their nominal honesty.

Consider the difference in number between the Lost advertisements and the Found advertisements, and it gives some idea of the honesty of people in general.

Of course people who find something solace themselves with the assumption that it is the duty of the loser, not of the finder, to advertise. This convention has no doubt established itself. Nevertheless we are inclined to think that the disparity between the two classes of advertisements throw some light on the question, Are People Honest?

## DECEMBER

Here is a rhapsody about December and, judging from Sunday night and Monday morning, isn't it true. There is something poetic in this New York Times' writer's description of what lies just ahead:

December comes in the night, the long night of brilliant stars. It comes with a chill crackling of ice in the bogland and the lonely hoot of the owl in the hemlock. It comes on a wind that swishes the leaf-bare elms and rattles the dry branches of the pin-oak, a wind that whistles in doorways and shakes the sash at the window. It comes in a cloud on the next ridge, where the new moon rests early.

A late dawn, and December is here, last span of the year, month of shortening days and deepening cold. December, with its solstice, and its Nativity, and its year's end, a crystal month of contrast. The shortest day, the longest night; the end and the beginning; the black of leafless landscape, the white of ice and snow; the cold of winter, the warmth of belief.

It is a dormant world, we say. And yet, when we take the time to see we find the berry on the holly, the dogwood bud on its branch, the ground pine verdant in the thick-ets. The junco lives the doorway, the blue-jay's blue is brighter than in June, and the sweet, bold notes of the cardinal are heard on fortunate days. The woodchuck sleeps in his burrow, but the fox is abroad when the wind whispers in the valley. Earth's pulse is slow, but the beat is still there.

December is the month of stars and The Star, of long nights and The Night, the last five minutes before low twelve on the clock of the seasons. But low twelve passes, and the round begins again, with spring and April up ahead.

### RHUBARB GOES ARISTOCRATIC

Fruit and vegetables are in conflict again. This time the former is laying definite claim to rhubarb—a claim that a court has been asked to sustain.

After a long period of controversy, the tomato was snatched from the vegetable family and set up as a fruit. Then along came the melon with a "me too" claim to whatever aristocracy may be attached to the fruit group, and apparently won out sufficiently to be given a fruit rating by Mr. Webster.

Even the nut has gained recognition as a hard-shelled fruit, and one wonders what other desertions are facing the vegetable family.

The poor squash that may lie in friendship alongside the melon in the garbler, apparently is destined to remain a vegetable. Likewise the ever-popular celery, the stem of which bears a striking resemblance to the somewhat larger stalk of rhubarb.

But, come what may, whether vegetable

or fruit, the rhubarb pie, with its stripes of flaky crust across the top, still takes the cake.

### THOSE SAUNTERING CENTURIES

Britain's first museum of carriages was recently opened in the Kentish town of Maidstone. If it be, as surely it is, one of the chief functions of a museum to give us the feel and atmosphere of the past, this example should prove particularly effective.

What a delightful vision of leisurely days must be called up by these ancient phaetons and curricle, these broughams and coaches and victorias! How they must bring home to us the loss of that dignified and unhurried tempo in which life moved for our ancestors, as they jogged along placidly to the sprightly jingle of harness and the cllop of hooves.

That anyway is how it is apt to seem to us in this age of rip-snorting progress; but is it quite an accurate conception? Our ancestors travelled slowly, but were they in any less of a hurry? They used to chant:

When we're rich we drives in chaises—  
When we're poor we walks like blazes.

And no doubt they frequently drove "like blazes," too. At ten miles per hour, perhaps, but with more expenditure of energy than it takes us to do our couple of hundred.

### DON'T THANK US

In our chosen job of issuing a weekly newspaper, we need and count on the support of all our readers to make each week's edition as detailed as possible in reflecting all the little things that go to make up the life of the community.

Not the least important are those items which appear in our "Social and Personal" section—news of visitors in town or visits made by townspeople to other localities, showers and birthday parties, illness, wedding anniversaries and so on. It is not humanly possible for one person to learn all of these without a great deal of help from readers.

We are often struck by the fact that many people think we are doing them a favor when we print such items about them! Quite the contrary! It is you who do us a favor by taking the trouble to stop in at the office or phone and tell us about an item which will help to fill the columns of The Independent.

We particularly invite some of the newer residents of town, with whom we are not yet acquainted, to give us social news items. There is no quicker or easier way to get acquainted in town than by having your name and your news in the paper.

If you have a poor memory you can cure yourself by leading small sums to your friends.

If everything everybody wished would happen, what a mess there would be in this world.

A New Line For Grimsby Customers . . .

## York Brand Frosted Foods

Green Peas, Cut Wax Beans, Spinach, Squash, Strawberries, Cut-up Chicken, and Fish.

Joe Wong and his grocery baby buggy.

"Mac" Allan and his dog. Insuperable pals.

The Village Inn has a new front door. A left handed one.

Johnson's Hardware has a double-decker window display. That's a winning space.

The Village Barber burning the midnight oil. Probably trying to figure out my overcoat.

Kids with their noses flattened against the plate glass windows gazing longingly at the toys on the inside.

Jerry Carson swinging down street. Just like the second section of the International Limited on the fly.

Three-thirty in the a.m. Chief Turner twisting door knobs. Not finding them all locked either. Whose fault is that?

Overheard in front of the Post Office. "The only difference between Hitler and John L. Lewis is that Hitler made speeches."

That is a fine collection of prizes on display in the Model Dairy windows to be given away at the Lions carnival tomorrow night.

Lincoln Electric Supply store. The best illuminated store in the Fruit Belt. As good as the best and better than many in the big cities.

Energy personified. "Wee Willie" Hewson, Councilor Ingelhart and Mr. Baxter, K.C., decorating the Model Dairy windows at 11 p.m.

Old Pop McVicar and Father O'Donnell with their heads together in front of the P.O. Was it religious advice or Peach King's Four bits on the Kings.

North Grimsby Councilor Sam Bartlett with his North Country windbreaker. Wonder if he bought that windbreaker in preparation for hunting rats in township garbage dump about to be established.

Digressing: Who was that handsome eligible bachelor in the North Ward who was observed cuddling a sweet, blonde, little two-year-old in his arms recently. Wonder if the vows are just around the corner.

Digressing. The second hardest worked man in Grimsby is away on holidays. How the C.N.R. will continue to operate in the interim is beyond this columnist. Moreover the hardsacks have not been taken in for the winter.

In front of Dymond's Drug Store. Old Tom Warner. Softly but firmly telling a couple of kid bicycle riders whose they were wrong in the way they rode their bikes down Livingston avenue, coming from school. I would have loved to have heard the whole story. It would have been good. But I am convinced that it will bear fruit.

Best decorated window in Grimsby is that of the Grimsby Natural Gas Co. It contains the 10 highly finished, well constructed occasional chairs that the Legion are offering for Christmas Gifts in their big drawing for funds for the club house. These chairs were made by Grimsby Furniture and that speaks for itself. Want to win one? Buy a draw ticket.

Ontonow is in the picture and it is still a question of onions. For the uninitiated Ontonow is that portion of Main Street, west of the Knicker's Hill corner. It derived its name from the fact that for many years an old Crimean war veteran "Billy" Wooten subsisted on his meagre army pension and the great crops of onions that he grew on a piece of land that the late Isaac Walker allowed him to use on his farm, the main portion of which is now owned by Lloyd Pettit. Now Billy Wooten is in the photograph. He informs this columnist that he had three rows of onions 30 feet long from which he gathered 30 heaping six quart baskets and that every onion weighed a pound or more. Carrots and slow music for "Red" Graham and all the other would-be agriculturists.

### STARTING POINT

If you want to be happy, begin where you are. Don't wait for some rapture that's further and far. Begin to be joyous, begin to be glad, And soon you'll forget that you ever were sad.

If you want to be happy, begin where you are. Your windows to sunlight and sweetness unbar; If dark seems the day, light a candle of cheer, 'Till its steady flame brightens each heart that comes near.

If you want to be happy, begin where you are. Tune up daily discords, till out of their jar New harmony rises, rejoicing and sweet And onward in music, go over your feet.

It's a wise father who knows as much as his own son.

Today is the tomorrow you worried about yesterday, and that dreadful thing didn't happen, did it?

The average woman doesn't need a large thumb in order to keep a man under it.

A man to be desired is the one who can be empowered with a little authority and not permit it to make a fool out of him.

## Mainly For MILADY

### Divorce Situation

In 1870 in the United States only one in every 34 marriages ended in divorce. That is to say, in those good old days, out of 34 couples really married for keeps. In 1900 the average was one divorce for every 12 marriages. In 1930 it was one in six. Now it is one in four. And it is predicted that in 20 years one out of every two marriages will end in the divorce court. How are things going at your house now? If any difficulties arise, don't fail to consult our Horos and Women or Men and Men Experts before you decide on a divorce. We may have some advice in our files that will solve your problem.

### New Discovery

The simple home method of removing old transfers really works. All you have to do is soak a wad or pad of cleansing tissue, or blotter, and place on transfer, completely covering it. Nothing else is required. The wet paper sticks to the wall or surface and after several hours you can remove the transfers easily with the fingernail.

Housewives will rejoice at this news as those "permanent" transfers, which will withstand the usual household wear and tear and "busy little fingers," can easily be changed for another decorating scheme whenever desired.

### Shortages

From a Pennsylvania newspaper wedding write-up is taken the following information: "The bridegroom wore the same shirt worn by the bride's father and three brothers at their weddings."

Life is full of entrances and exits. Let's make them gracefully.

### Manners For Moderns

Don't be afraid of being the first to arrive at a party. The few moments before you are joined by others will be awkward only if you make them so. When entering a room, take your time. By pausing a minute you can locate your hostess and go to greet her before joining your friends.

When a man and a woman enter a bus together the woman precedes the man, but he is first to alight as to help his companion step off the bus (or out of the cab). At the theater a man leads the way if he holds the tickets. When the usher takes the tickets the lady follows the usher. At the movies the woman usually goes first as her companion would naturally want her to choose the seats. On returning to a home after a theater party the host or hostess enters the house ahead of her guest.

When making a call, leave before other visitors who have arrived after you. Do not say that you must go and do nothing about it, or keep your hostess standing while you make a lingering farewell. When you decide to go, go!

### Don't Forget Your Seals

Christmas weather! Shades of jingle bells with the fringe on top. Santa Claus is rounding up his reindeer and Pop is rounding up his courage and spare cash. Probe point to a record buying binge by the populace, and Canada's cupboard is groaning with goodies.

Just before your shopping list runs six inches off the page, write down Christmas seals. They are playing a potent part in our winning battle against tuberculosis—in arresting the killer in its early stages and detecting those leaning toward infection.

The birth of Christmas seals goes back to Denmark and 1901. Elmer Holboell, a postal clerk, thought of the idea as a fund-raiser for promoting public health. They were introduced to Canada in 1907 by Sir William Osage, president of the National Sanitarium Association.

One hundred per cent of the proceeds of the sale of seals in this district goes for discovery and treatment of TB. They help to buy mobile X-ray equipment which is responsible for unearthing undetected cases that would otherwise move about their daily business for months infecting others as they went.

Hello, Homemakers! A comment made by a friend from the Old Country about our scones will long be remembered. She said: "This is just as good as cake. In fact, I would never miss cake if I had breads like this." It is evident that even English people are changing their tastes since these quick breads were made with less sugar and no butter compared to old-time recipes.

Ten, biscuits, scones, coffee cakes and quick loaf breads use a small amount of sugar and shortening. Of course, some butter will disappear when freshly baked biscuits and scones are served, but as these take the place of both bread and cake, there should be a noticeable saving. We should save now for the festive goodies.

#### FRUIT SCONES

2 cups sifted all-purpose flour, 4 level tps. baking powder, 1/2 tsp. salt, 2 tps. sugar, 4 tps. lard, 1/2 cup currants or raisins, 1 egg (beaten), 2-3 cup milk.

Preheat oven to 450 degs. F. Combine flour, baking powder, salt and sugar and sift together. Cut in lard with pastry blender or use two knives with scissor-like motion, until the mixture is the consistency of fine meal. Add fruit. Beat egg, and add to milk, reserving a little of the egg (about 1 tsp.) in bottom of bowl for glazing top of scones. Pour combined egg and milk mixture into dry ingredients, stirring with a fork until a soft dough is formed. Divide dough in two equal portions and roll on floured bake board until one-half inch thick and six inches in diameter. Place each portion on greased cookie sheet and score in quarters with sharp knife. Brush with glaze made by combining the reserved 1 tsp. of egg and 1 tsp. of milk. Bake in electric oven 450 degs. for 15 mins.

Note: A little chopped mixed peel may be substituted for some of the currants or raisins in the above recipe.

#### DUTCH APPLE CAKE

Topping  
1/2 cup thinly sliced apples, 3 tps. brown sugar, 1/2 tsp. cinnamon, 1-2 tsp. nutmeg, 1 1/2 tps. melted shortening or butter.

Dough  
1 1/2 cups sifted all-purpose flour, 2 1/2 tps. baking powder, 1/2 tsp. salt, 3 tps. granulated sugar, 3 tps. lard, 1 egg, well-beaten, 1-3 cup milk.

Preheat oven to 425 degs. Grease thoroughly a deep eight-inch layer cake tin.

Topping  
Prepare and measure ingredi-

OBTAIN THEM FROM YOUR  
HYDRO OFFICE  
H4610

ents for topping. Pure, cold and sliced apples (one large or 3 small apples should be sufficient). Melt shortening or butter and reserve one teaspoon. (Butter gives better flavour for this.) Mix sugar, cinnamon and nutmeg with remaining shortening.

Dough  
Make dough as follows: Sift flour, baking powder and salt together. Add sugar. Cut in shortening with pastry blender or two knives scissor-fashion until mixture resembles fine crumbs. Combine beaten egg and milk and pour the dry ingredients, blending in gently with fork until soft dough is formed. Gently pat dough in a greased pan. Brush top with the reserved teaspoon of melted butter. Arrange slices of apple in rows on top. Sprinkle sugar and spice mixture over top, spreading evenly. Place in electric oven (425 degs.) and bake 10 mins. Reduce temperature to 375 degs. and continue to bake for 20 to 30 mins. longer or until apples are tender and top is lightly browned. To serve cut in pie-shaped pieces. Use as hot sweetbread or as dessert with a fruit or custard sauce. Yield: 6 to 8 servings.

#### THE QUESTION BOX

Mrs. R. T. asks for recipe to substitute for shortbread.

Answer:  
Christmas Cherries  
1/2 cup shortening, 1/2 cup granulated sugar, 1 egg yolk, 1/2 tsp. vanilla, 1 tps. grated orange rind, 1 1/2 tps. grated lemon rind, 1 tps. lemon juice, 1 cup sifted flour, 1 egg white (slightly beaten), 15 candied cherries, 1/2 cup chopped nuts.

Cream shortening in electric mixer, add sugar gradually, beating constantly. Add egg yolk, vanilla, orange, lemon juice and rind. Add flour, mix well. Chill in electric refrigerator. Roll into small balls 1/2 inch in diameter, roll in egg white, then in chopped nuts. Place on greased baking sheet, place half a cherry on each cookie. Bake at 350 degrees for 20 mins. Yield: 20 cookies.

Mrs. J. G. asks for tasty cake recipe made with water.

Answer:  
Jelly Roll  
2 eggs (separated), 2 tps. cold water, 1/2 cup white sugar, 1/2 cup sifted cake flour, 1/2 tsp. salt, 1 tsp. baking powder, 1/2 tsp. vanilla, 1/2 tsp. lemon flavoring.

#### CARROT PUDDING

1 1/2 cups crumbs, 1 tps. shortening or 1/2 cup fine chopped suet, 1/2 tsp. salt, 1/2 cup grated carrots, 1 tps. baking powder, 1 cup molasses, 1/2 cup chopped prunes, 1/2 cup raisins, 1/2 cup chopped figs or evaporated apples, 1/2 cup ground nuts, 1/2 lemon.

Brown the crumbs and mix them with the fat. Sift the carrots which have been grated or put through the meat-grinder, and add them to the crumbs. Next add the molasses, fruit, nuts, lemon juice and grated rind. Mix all together well and stir in the baking powder. Turn into a well-greased mould and steam for four or five hours. Serve with a raisin sauce.

#### STEAMED GRAHAM PUDDING

1/2 cup ground cracklings, 1 cup molasses, 1 cup sour milk, 2 cups graham flour, 1/2 cup corn meal, 4 tps. baking powder, 1/2 tsp. soda, 1 tsp. salt, 1 cup seeded raisins, 2 tps. white flour, 1 tsp. cinnamon, 1/2 tsp. each, mace, cloves, all-spice, ginger.

Mix and sift the dry ingredients, except the white flour. Add molasses and milk to cracklings. Combine mixtures. Mix white flour and raisins and add to mixture. Turn into greased mould. Cover and steam three hours. Serve with caramel or lemon sauce.

#### HOT SPICE CIDER

2 qts. cider, 12 small pieces stick cinnamon, 16 whole cloves, 16 capers, 1-3 cup sugar, 1/2 tsp. salt.

To cider add whole spices tied loosely in cheesecloth bag. Add sugar and salt. Bring to boiling point but do not boil. Allow to cool and let stand for several hours. Just before serving heat cider, remove spice bag and serve piping hot.

Yield: 8 to 10 servings.

#### THE QUESTION BOX

Mrs. D. L. asks for Gingermap Ice Cream recipe.

Answer:  
1 cup heavy cream, 2 tps. fine sugar, 3 bananas, mashed, 3 tps. lemon juice, 1 cup rolled ginger-map crumbs.

Add 1/2 tsp. lemon juice to cream and whip until stiff. Add sugar and few grains of salt. Combine bananas and lemon juice and fold into cream. Stir in rolled ginger-map crumbs. Freeze—stirring once during freezing.

Mrs. G. R. asks if cottage cheese can be made of skim milk.

Answer: Yes, and it is very good if the milk is soured by using 1 tsp. vinegar for 1 pint milk. Heat slowly in a pan over hot water until it separates into curds and whey. Strain through cheese cloth. Chill and mash with a fork.

## Huge New Plant For Mass Production

New Massey-Harris Combine Plant Contains over 270,000 square feet of floor space.

Main assembly line is automotive type—one of the most modern on the continent. Self-propelled combines are now rolling off the assembly line of the new Massey-Harris Combine Plant at Toronto. This plant constructed at a cost of \$2,000,000 and recently placed in operation, is the company's answer to the farmers of the world who, in recent years, have created the greatest demand in history for power farm machines of all kinds with particular emphasis on the new self-propelled combine development introduced by Massey-Harris.

The building, laid out almost entirely on one floor, covers over 270,000 square feet of floor space, is said to be the largest of its kind in Canada, specially designed for the manufacture of a single farm machine. Production in the plant employs the latest ideas in modern production methods for speed and quality of workmanship.

### SEVENTEEN RULES FOR SAFE DRIVING

Seventeen rules for safe motor- ing come with the official Pennsylvania road map for 1946.

1. Always be alert. Let nothing distract your attention from your job of driving.
2. Approach pedestrians with caution. Be ready to make a quick safe stop.
3. Always remain a sufficient distance behind the car in front of you to be able to stop safely.
4. Slow-moving vehicles must keep to the extreme right of the highway. They are an accident hazard, inviting foolish motorists to make dangerous passes.
5. When an officer signals for you to stop, drive to the extreme right of the highway and give notice of your intention to the vehicle which is behind you.
6. Always slow down before reaching a curve.
7. Instead of coasting around a curve, keep your car in gear and feed the gas cautiously.
8. Never jam your brakes. Best braking power is obtained by applying and releasing the brakes intermittently with a pumping motion.
9. Permit clutch to remain engaged in slowing down.
10. To insure safety, use the same gear in descending a steep grade as you would have to use to ascend it.
11. If your car starts to skid, keep it in gear and turn the front wheels in the direction of the skid.
12. Never over-drive your headlights at night. A good rule is to drive two-thirds as fast by night as you do by day. Slowdown—slow down.
13. Keep your windshield clean. A dirty windshield is especially hazardous at sundown and at night.
14. Be on the alert at night for identification lights of trucks and buses. These indicate the presence of a large, slow-moving vehicle.
15. Never operate a car more than four hours with less than 30 minutes' relaxation, or more than eight hours with less than two hours' rest.
16. Keep your car under control while passing children who are walking or playing along the highway.
17. Avoid looking directly at the lights of an oncoming car at night. An eye is a sensitive instrument which is quickly blinded by a glare.

### A PERFECT CLOCK

We think we have a treasure in timekeeping if our clock or watch is accurate to within a minute. But Sir Harold Spencer Jones, the Astronomer Royal (Great Britain) has spoken of a quartz-crystal clock which keeps time to within one-thousandth of a second a day. This is the most accurate type of clock yet invented. It is so precise that it can check the rotation of the earth, which is Nature's timekeeper, though not always accurate. In fact, in a recent period of fifty years the earth's rotation varied by as much as four or five hundredths of a second. Since 1916, however, it has been keeping better time, but should it vary again our quartz-crystal clock would reveal

the fact and would enable a check to be made. As the Astronomer-Royal has said, we could then see if a man-made clock proved a better timekeeper than the earth itself.

But it was a police officer and officials that over served the people. An authority says girl babies learn to speak quicker than boys. And what's more, men never over- comes the start given women.

## A STATEMENT OF POLICY

by

## GENERAL MOTORS DEALERS

handling

CHEVROLET • OLDSMOBILE • CHEVROLET TRUCKS

Today, as never before, there rests with every merchant an obligation both to his customers and to the common good... an obligation to justify confidence and goodwill and to co-operate unreservedly in the maintenance of a stable economy. We, General Motors dealers in this community, recognizing these obligations, will continue, in all our business dealings, to adhere to the following principles:

- ★ We will sell all New and Used Cars and Trucks at not more than the authorized prices.
- ★ We will do our best, under present conditions, to allocate all the New Passenger Cars and Trucks we receive, on the fairest possible basis, with special consideration to any Veteran of World War II who may require a car with special controls; to practising Physicians and Surgeons, and others whose urgent need is apparent.
- ★ We will make allowances based on an honest appraisal and a fair valuation to

purchasers who have cars or trucks to trade.

- ★ We will give purchasers the benefit of those accessories which are available, but delivery of a new car or truck will not be conditional upon the acceptance of accessories other than those desired.
- ★ We will charge only equitable prices for parts, accessories and services, and when requested will gladly provide advance estimates for the benefit of the customer.
- ★ We will, at all times, strive to serve our customers' needs — with efficiency, fairness and courtesy.

## UTOPIA — FEMININE MODEL

(Condensed from "Pitching Horse-shoes" Billy Rose, in Reader's Digest)

Last April the fabulous Broadway showman Billy Rose dreamed up a new stunt to publicize his Diamond Horseshoe night club. As paid advertisements in New York newspapers he published a series of daily columns under the title "Pitching Horse-shoes." They consisted of breezy comment on this, that and usually the other—with only occasional references to what he calls his "bejeweled basement" or "Technicolor trap." To Rose's pleased surprise the "adventurists" attracted such wide interest that other newspapers offered to print them "for free." The column now appears in 100 papers across the land, and in January the Bell Syndicate will distribute it—guaranteeing Billy Rose \$52,000 a year for what started, he says, as a gag.

Last night I ate some melted cheese before I went to bed. After boxing four rounds with the pillow I gave up, snipped on the light and reached for the evening paper. On page one I read an item which said, "Women will cast 60 percent of the votes in the next election."

"How about that?" I mumbled. "Any time the girls get together on a program they can take over and run things to suit themselves."

Suddenly the print blurred before my eyes like a camera going

out of focus, and I found myself walking down a strange street. It looked like New York, but it was oddly changed. The buildings were pastel pink and blue, and instead of breathing carbon monoxide, I was inhaling Chanel No. 5. From loudspeakers on every lamppost came the strains of "L'Amour Toujours L'Amour."

In front of a familiar-looking building I saw a policeman on a small gold pedestal. He was six feet three, and his uniform looked like a Siegfried scale. "What's that imposing structure?" I inquired.

"Grand Central Powder Room," he answered. "Cost 30 million. There's one like it in every city."

I began to get it, and queried, "Are the women in power and running the country?"

"Not exactly," he told me. "Do you think one woman would vote for another? But they're electing only the men they like. This is Gregory Peck's second term as President."

"Did they throw out all the politicians?" I inquired.

"Only the ugly ones. The photographic fellows—James Forrestal, Paul McNutt, Bernard Baruch, Eisenhower—have more influence than ever. By the way, let me see your marriage card."

"What's that?"

"Every man has to carry one. It tells your age, income and chest development. If a man isn't spiced by the time he's 30 the Government puts him to work as a baby-sitter. There's been a lot of changes. Pay checks are mailed directly

to the wives, thus eliminating the middle-man. Every husband has to shave as soon as he gets home from work, and every man with more than one stomach is put on Ry-Krip and water. Even then, the little woman doesn't have to kiss her husband unless she's in the mood.

"When a woman gets to be 29," he continued, "they burn up her birth certificate. Eight out of the 12 months are named June. Brides reserve the right to send their groom a penny postcard within the first week and call the whole thing off."

"The currency may confuse you. The new paper money comes in denominations of \$98, \$4.98 and \$9.98. Small change is the same, but a streetcar conductor must accept the first coin a woman fishes out of her bag. Even a Life Saver is legal tender on trolleys and buses."

"Schools are teaching readin', 'ritin' and rumba. Chocolate creams are sold split in half, so the girls can tell what's inside without biting into them. Scales register ten pounds lighter and mirrors have been designed to make stylish stouties look like 12."

"How about Banking and Finance?" I asked.

"Well, the girls couldn't understand it, took a vote and decided to skip it."

"What's the International Situation?"

"Worse than ever," he thundered. "Last week Elia Maxwell wanted to wear a Russian blouse at a Washington garden party. Gromyko checked with Moscow and vetoed it. We were on the point of mobilizing when our ambassador, Walter Pidgeon, smoothed things over."

"So long, slave. Watch yourself crossing the street," he said, as he turned back to the traffic. "The ladies passed a law that entitles them to drive on both sides."

As I walked away, lost in thought, a chauffeured-and-shocking-pink roadster suddenly came at me from nowhere. There was a shrieking of brakes, and then silence. I awoke to find my frau putting cold compresses on my head and cooing soothing words.

"I had the daffiest nightmare, darling," I said. "I dreamed that women were running things to suit themselves. Isn't that silly?"

"Of course it's silly," she agreed. "By the way, dear, my sister and her children are coming tomorrow to spend a month with us. I fixed a nice cot for you up in the attic."

## Confusing Views On Longevity

News was temporarily scarce in one of the smaller cities of Ould Ireland. The editor of one of the papers heard of a 98-year-old inhabitant of a neighbouring village whose continued good health was the talk of the countryside. Thinking to do a small article on this man, the editor sent two of his reporting staff off to interview him.

After reaching the village and getting their directions, they approached the house, and after knocking, were directed upstairs. The old fellow was the picture of health as he sat reading a book by the window. He did not have need for glasses. Many questions were asked of him, and in particular, as regards his various habits — "Did he smoke, did he drink, did he keep moderate hours, lots of sleep and all that?" He told them he had never smoked in his life, always had lots of sleep, and as far as alcohol was concerned, he had never tasted it, no, not even had a small of it in his life. The reporters nodded to one another and seemed to agree that here was the secret of healthy old age. "There's no doubt about it," said one. "Indubitably," said the other.

Just then there was a terrific racket on the outside stairs. The noise came up, up, and finally the door burst open and another old fellow with tobacco stains all over his whiskers, and smelling high of good old Irish Whisky, burst into the room. "Hallooooo!" he shouted. The clean-living old gentleman thereupon stood up and turning to the interviewers said, "Gentlemen, meet my father."

## OCEAN NEWSPAPER

The report that the daily newspaper published in pre-war days aboard the Queen Mary is to appear again recalls Marconi's Transatlantic Times which appeared on the liner St Paul in 1899.

With his experimental apparatus which he had with him, Marconi was able to receive all the latest news flashed out to him from the transmitting station at the Needles in the Isle of Wight. Passengers heard with wonder the latest information on the Boer War and of the sinking of the U.S. cruiser Charleston.

The Transatlantic Times was therefore the first ocean newspaper to appear with world reports.

There might be some houses big enough for two women but never a kitchen big enough for both man and wife at the same time.

## BELL TELEPHONE WILL MAKE RURAL LINE IMPROVEMENTS

Most rural residents, both telephone subscribers and non-subscribers, agree that the value of telephone service in their community is steadily increasing, according to a Bell Telephone canvass of farm areas in Ontario and Quebec. This is one of the many significant findings of two rural opinion surveys described in detail by K. L. Carruthers, Bell general development engineer, at this year's convention of the Canadian Independent Telephone Association, held recently in Toronto.

Mr. Carruthers stated that the specific point which stands out most clearly as a result of the surveys is the need for reducing the number of telephone calls on a rural line. To reach a satisfactory level, the Bell Company alone must increase the number of its rural circuits by some 2,500 or 35 per cent, he said. The surveys showed the

importance of adding new subscribers in those areas not sufficiently developed and the desirability of certain general improvements such as the elimination of magneto (hand crank) systems.

With the realization that some rural areas do not have access to standard telephone service available to urban dwellers and remembering that an estimated one-third of all family dwellings in the two provinces are in rural territory, Bell workers undertook to find out how rural users feel about their present service; what improvements were most urgent; where service extensions were most necessary to give proper coverage; and, finally, why non-users do not have telephones.

Detailed questionnaires were sent out to 4,300, or some seven per cent of rural users, of whom 3,000 replied. There were general in-

quiries on the quality, value and adequacy of service, and users were asked to comment on types of equipment, rates and billing methods. A carefully selected cross-section was included so that all districts, both English and French speaking were represented.

While a great majority of users indicated a general satisfaction with the present service, there were substantial groups who registered dissatisfaction on particular points. By evaluating this information, Mr. Carruthers pointed out, the company gains a useful basis for determining its long range improvement plans.

Most complaints related to the fact that there were too many users of a line; that the line was often busy when needed or there was interference with calls in progress. The need for privacy in telephone conversations was emphasized by 71 per cent of these rural users. They objected to others "listening-in" or multi-party lines.

A somewhat different questionnaire was sent to the 4,750 persons covered in the non-user survey.

Only 40 per cent replied but from these some interesting trends of thinking were revealed. For instance, 46 per cent of the non-users look upon the telephone as a necessity. Some consider it more important on the farm than electricity. Some three-quarters of the non-subscribers stated that a co-

casian they did make use of some-one else's telephone, in many cases to the extent of more than 30 calls per month.

## Night And Day Is Gala Musical Riot At Roxy

Based on the fabulous career of Cole Porter, outstanding contemporary song writer, Warner Bros. eye-filing Technicolor musical, "Night And Day," playing at the Roxy Theatre first three days of next week, takes its title from one of the composer's most popular songs.

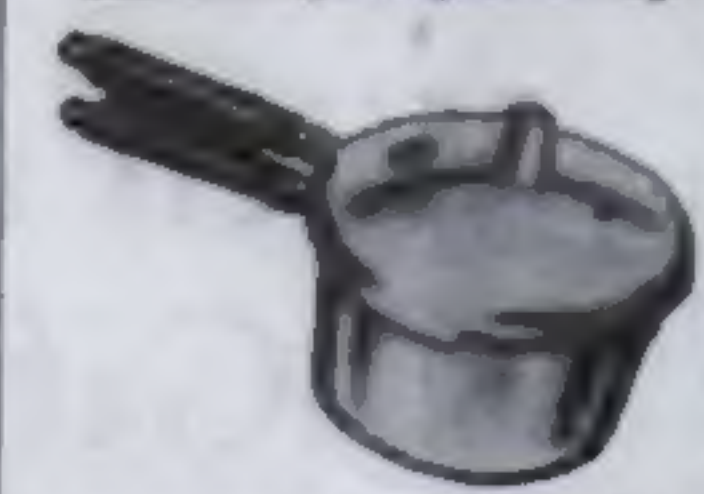

Cary Grant, in a well-timed change of pace from the melodramas and comedies he's been starring in, draws the top romantic role of the composer playing opposite lovely Alexis Smith. Surrounding them are a group of top performers of stage, screen and radio, including Monty Woolley, Jimmy Humes, Jane Wyman, Eve Arden, Carlos Ramirez, Donald Woods and Mary Martin.

Porter's career in itself is a stimulus because he was born with a silver spoon in his mouth only to decide that all that was silver held no glitter for him. So he gave it all up, including a law course at Yale, and took Professor Monty Woolley (who plays himself in the film) with him to pursue a career of song writing and show producing.

That career was stopped dead in its tracks on Porter's first opening night by the news of the sinking of the Lusitania. His romance with lovely Linda Lee (Alexis Smith) was broken off by the First World War. And the demands of his successful career after the war, nearly finished off his marriage to her.

## The Finest Gift FOR HOMEMAHERS

This year give her the gift of gifts . . . a Presto Cooker! All year long a Presto cooker works and then in proper cooking mode. It serves food flavors and colors, too, as well as vitamins and minerals. Shorter cooking time means less fuel costs. Presto is easy to use, too. The exclusive Homec seal insures quick and secure cooking. This Indicator-Weight, which clearly shows 5, 10, or 15 pounds pressure, makes possible safe, efficient cooking or hi-speed cooking.

"60" is out from Presto Cooker Model. Good quality sealant, extra durable, 1/2 lb. cooking. Simmer. Holds from 10 to 15 lbs.

THE PRESTO COOKER GIFT BOND The easy way to give her a Presto is a Presto Gift Bond. It's the correct way of securing quickest possible delivery of this best-of-all kitchen helper.

## WEEKLY EDITORS PRESENT CAR TO RETIRING OFFICER

On his retirement as managing director of the Canadian Weekly Newspapers' Association after 11 years service, C. V. Charters, of Brampton, Ont., was presented with a new 1946 Pontiac sedan by

members of the association at their annual convention at Halifax. Shown above is Dr. Hugh Templin, of Fergus, Ont., (left) immediate past president of the C.W.N.A., presenting the keys to Mr. Charters.

"But darling - that advertisement EXAGGERATED a little. NO new stove can REALLY make an old shoe taste delicious."

## HERE'S A NATIONAL HEALTH

Knowledge may be power, but, from a nutritionist's point of view, it is useless unless it is put to practice. "Your body can't rebuild and repair its natural wastage on knowledge alone," declares a medical man in the Department of National Health and Welfare, "Food being the keynote of good health, the wise person not only learns the science of nutrition but abides by its cardinal rules." To assist those

interested, the department has issued a free booklet entitled, "Canada's Food Rules."

The man who contends there is no hell must be the one who has never tried to laugh with a cracked lip.

The old-fashioned girl had more leisure. It didn't take her so long to adjust her complexion every morning.

## FOOD RULES

Be sure you get all the food values your body requires, advises an authority on nutrition at headquarters of the Department of National Health and Welfare. "If you want to look, feel and do your best, be sure to get all the necessary food elements," says the expert, who points out that Canada's Food Rules, copies of which may be obtained, free, from the provincial health department, or from the federal health authority, indicate such health foods as milk, fruit, vegetables, whole grain cereals, and meat or meat alternates.

When a man says he dislikes publicity, it means that he hates the wrong kind of publicity.

## CAPACITY AUDIENCE

Higgins, Morley McCallum, Joyce Marlow, Kenneth Martin, Joanne Nelles, Jean Simenton, Philippa Thompson, Wilda Morris, Dorothy Vickers.

## Secondary School Honour Graduation Diplomas

Douglas Bedford, Graham Brownlee, Frances Dufee, Joan Eaton, Elizabeth Hand, Alison Jeffries, Helen McPherson, Ruth Manning, Alexander Marr, Dorothy Metcalfe, Lois Rahn, Ian Marr, 1946.

Professor L. H. Cragg, M.A., Ph.D., of McMaster University was invited to give the address to the graduates.

Professor Cragg's theme was "Tempering Competition with Co-operation." He stressed the pre-war co-operation among nations in three main fields, Science, Music and Christianity with emphasis on Science. As examples of co-operation between nations in the field of Science Professor Cragg chose the development of such discoveries as R. D. X. the super explosive, Penicillin and the Atomic Bomb.

Professor Cragg then brought his theme closer home by emphasizing that a good formula for success in school is the temperance of friendly competition with co-operation.

After Professor Cragg's address the following medals and awards were presented: I.O.D.E. Medal to Madeline Pogachar by Mrs. Buckenham; Lion's Club Medal to Douglas Bedford by Dr. Aubrey Cricht; Mathematics Medal and Junior Markham Cup by Donald Aude; the Ontario Athletic Commission Medal to Gordon Ruse by Mr. Mortley.

The following Form Proficiency Awards were also presented: Grade 9A to Pat Harrison by Miss Mory-

an; Grade 9B to Pat Dowle by Mrs. Dowle; Grade 10A and B to Marjorie Haworth and Betty Shantz by Miss Glave; Grade 11 to Jewell De la Plante and Grade 12 to Jeannine Nelles by Miss Calder.

Other awards presented were the I.O.D.E. Program Awards presented by the members of the I.O.D.E. as follows: Grade 10A to John Millard; Grade 10B to William Betts; Grade 10C to Marjorie Morton; Grade 10D to Angus MacMillan; Grade 11 to Valentine Smith; Grade 12 to Philippe Thompson; Grade 13 to Douglas Bedford.

Merchants' Shield Awards: Art to Donald Haws, Sadie Hinata; Commercial to Dorothy Vickers; History to Jean Simenton; Latin to R. Manning, D. Metcalfe; Mathematics to Ian Marr; Oratory to Alice Robinson; General Proficiency to Ian Marr.

Verse Speaking and Oratory Awards: Junior Verse Speaking to Diane Sawyer; Senior Verse Speaking to Leon Betzner; Junior Oratory to Stephen Hooper; Senior Oratory to Alice Robinson.

In a darkened auditorium on a brightly lit stage the girls of Grade 10 presented the very colorful Mexican Hat Dance. This number showed the result of much preparation and constituted one of the high points of the evening.

To complete the evening program the G.H.S. Choir sang a series of six numbers. Mr. Eaton has put a great deal of work on the choir this fall and the results were shown on Friday night.

The numbers rendered were: "Marianina, a gay Italian Folk song; Drink to Me Only With Thine Eyes; and Come to the Fair.

In the second group there were: Song of Love by the girls' choir, with solo by Olga Apostol; Johnny Morgan with solo by Lewis Jones;

and Winter Song in which all former choir members were invited to join. Miss Joan Eaton accompanied the choir on the piano in this last number.

Particular credit goes to Lewis Jones and Olga Apostol for their fine solo work and to Madeline Pogachar for her fine work on the piano in accompanying the choir.

Credit also goes to Albert Buckenham for his exceptionally beautiful rendition of the Stephen Foster melody "Beautiful Dreamer." Bert was accompanied by Peter Phelps at the piano, who also did a good job.

The program ended with the singing of God Save the King. An hour and a half dancing was enjoyed in the gym afterwards.

We wish to extend our thanks to Havelock Jewson, the hard working president of our Student Executive. "Have" did a great deal of work on the decoration and also worked hard all during the evening to make sure that the Graduation Exercises came off smoothly. Or-chids to "Have."

## R.C.A.F. VETERAN

betson Company and was plant superintendent at the time the factory was destroyed by fire.

While it may not be realized by the general public, there are upwards of 30 separate precision operations in the manufacture of bamboo rods. Mr. Scott revealed in an interview this week. As an example of this and contrary to popular belief, he pointed out, the rod lengths are not made of a single piece of bamboo. Instead, he said, each length is composed of six thin triangular strips of cane, carefully cemented and compressed into a six-sided compound section. As an example of the delicate work entailed in this operation, the tip of the rod measures only 3-32" of an inch in diameter and yet contains the six separate cane strips.

Following arrival on the assembly line, the compounded cane is first sanded to a satin finish and then straightened by a dry-heat formula. After shaping of the cane

ends, metal fittings are mounted into place and the rod is whipped up in various coloured silk. Following the alignment of the line guides, the rod lengths go through several shellac and varnish processes in a special drying room. At the end of the line, each section receives an overall inspection for flaws and, finally, the rod is fully assembled, weighed and given a thorough test for springiness and return action.

Year-round employment for about 35 people will be afforded when supplies of bamboo from China and cork from Spain are more plentiful, Mr. Scott stated. Future plans for expansion call for the erection of a small self-contained factory within the town limits, and the manufacture of steel rods, lines, baits and all associated products.

## CHIEF LE PAGE

not take much to start a blaze but it takes a lot to put one out.

Citizens who have run gas apparatus draught pipes into their walls and ceilings should immediately take steps to continue these pipes through the outer wall of the building and let the fumes waft away on the outside.

## GRIMSBY BIBLE

neighborhood, which copies of the Scripture the Committee are to sell at cost, and to give gratis to those they know cannot purchase, and the surplus be remitted half-yearly to the Upper Canada Bible Society for the purpose of translating the Word of God into the Indian language, and supplying other nations through the parent institution with the pure Word of God." The parent institution being, of course, the British and Foreign Bible Society.

One probable reason why J. D. Fitch was chosen as Depository was because he operated a general store—a common meeting ground for the entire populace. His first shipment of Bibles arrived the day after Christmas and consisted of 106 volumes in all styles of type

and binding and in a wide range of prices. We wonder who got the big Pica Bible in sheepskin binding?

After that, a case of Bibles was ordered every two or three years until 1878, by which time the territory must have pretty well reached the point of saturation. Are any of those Bibles in existence today?

Since that November day in 1854, the Society has enlarged its borders, and now the translated Scriptures of the British and Foreign Bible Society number 764. There still remain One Thousand languages for which there has been no translation of any part of the Scriptures: The immediate aim of the Society is to rebuild the shattered peoples of the world by circulating the Word of God. Church missions and colporteurs are the main channels of distribution.

Come out on Bible Sunday, December 8th, to hear more about this great work. The Executive of the local Branch has arranged a joint meeting of Baptist, St. John's and Trinity congregations at St. Andrew's, at 7.30 p.m. Rev'd J. B. Harrington, District Secretary, Toronto, will be the special speaker.

## THEAL BROS.

cold season, the frozen produce retains practically all of its natural mineral and caloric values.

The vegetables, for instance, are taken directly from the garden to a central cold storage plant. Once there, they are washed, scraped, trimmed, boiled, packaged and placed in a quick-freeze locker room. The time lapse picking and freezing averages about 12 hours.

In the case of berries, the process is considerably shorter, with the fruit being raised, stemmed and frozen in about one-third of the time required for vegetables.

Fresh lake and sea fish are also included in the variety of food-stuffs to be seen in the new frozen-foods compartment.

OPEN FROM 9 A.M. TO 9 P.M. FOR YOUR  
CONVENIENCE

Mrs. (Rev.) G. A. McLean is vis-  
iting her daughter, Mrs. Geo. Ry-  
croft, Toronto.

Saturday night dinner dances at  
The Village Inn are attracting a  
lot of people and they all report  
having a wonderful time.

Mr. and Mrs. J. A. Todd of  
French River, and daughter, Marg-  
aret, have arrived at Grimsby  
Beach to spend the winter with  
George W. and Mrs. Crittenden.  
During the hunting season Miss  
Margaret was fortunate enough to  
bag a large buck deer and thus es-  
tablished herself as a huntress of  
power in the North Country.

Mr. and Mrs. Johnson have moved  
into their new home on Nelson  
Boulevard recently vacated by L.L.  
Col. and Mrs. Kemp; the Barney  
Moberley family have moved into  
the home on Adelaide Street vac-  
ated by the Johnsons, and Robert  
and Mrs. Potter of Beamsville,  
have moved into the Moberley de-  
mille on Fairview Avenue.

## Women's Institute

The Women's Institute will meet  
at the home of Mrs. L. Larsen on  
Tuesday, December 28th at 8 p.m.  
There will be a small collection to  
provide a Christmas parcel for our  
adopted soldier in Christie Street  
Hospital.

## Engagement

Mr. and Mrs. L. Madigan an-  
nounce the engagement of their  
second daughter, Dorothy Evelyn,  
to Mr. Edward Hopkins, of Grime-  
by; the marriage to take place on  
December 27th, 1948, at 7 p.m., in  
St. Andrew's Church.

## Trinity Circle

The guest speaker at Trinity  
United Church on Sunday last was  
the Rev. Dr. Outerbridge, M.A.,  
S.T.D., of Oshkosh, formerly, and  
soon again to be a missionary to  
Japan.

At the same service, the choir of  
Trinity United Church, Beamsville,  
under the leadership of Mr. W. F.  
Tafford, was present on exchange  
with the Grimsby choir that went  
to Beamsville.

## Baptist L.A.

The ladies of the Baptist Church  
held a most successful Fair in the  
church hall on November 28th,  
which was well patronized. The  
tables were most attractive with a  
wide variety of articles and attest  
to the skill and industry of the  
ladies. In the evening, a delightful  
program was provided after which  
a social hour followed and delicious  
refreshments were served by the  
committee.

Special mention is due Mr. Hugh  
Asher, Calstar Centre, for his en-  
tertaining songs; Mrs. F. Brane-  
combe for delightful piano selec-  
tions and comic readings by Mrs.  
Frank Miller.

A nice sum was realized.

## Card of Thanks

Mrs. C. J. Duane and family wish  
to thank their many friends for  
kindness shown during their re-  
cent bereavement.

The Ladies of the Baptist Church  
wish to thank their many friends  
and public for their generous sup-  
port and attendance at their recent  
Fair.

The Ukrainian Greek Orthodox  
Parish of St. George in Grimsby  
wishes to thank its many friends  
and benefactors for their gener-  
ous aid which enabled the recent  
Fair Bazaar to be the success it  
was. Particular thanks are due to  
the merchants and tradesmen of  
Grimsby and district for their very  
generous contributions too nume-  
rous to allow separate mention.

Thank you, gentlemen, for your  
kindness.

## Nuptials

GEDDES—MACKIE

A very pretty wedding was sol-  
emnized in St. John's Presbyterian  
Church, Grimsby, on Saturday, No-  
vember 28th, at 3 o'clock, when  
Evelyn Mina, daughter of Mr. and  
Mrs. Robert Mackie, Grimsby, be-  
came the bride of Mr. John Geddes,  
son of Mrs. Harry Geddes and the  
late Mr. Geddes, Beamsville. The  
church was decorated with ferns  
and pink and white chrysanthem-  
ums for the occasion. Mrs. Dun-  
can Macintosh, Grimsby, played  
the wedding music with Mrs. Char-  
les Tallman, St. Catharines, as  
soloist, singing "In The Garden"  
and "Because." Rev. F. McAvoy  
officiated.

Given in marriage by her father,  
the bride was gracefully gowned in  
point d'esprit over white satin, the  
skirt ending in a slight train. Her  
long embroidered veil was held in  
place by a sweetheart headpiece  
trimmed with orange blossoms. She  
carried a bouquet of red roses with  
heather and ivy. Miss Dorcas  
Mackie, sister of the bride, was  
maid of honour gowned in blue  
sheer with matching headpiece.  
Misses June Gledhill, Grimsby, and  
Joyce Geddes, Beamsville, gowned  
in pink sheer and matching head-  
pieces were bridesmaids. They all  
carried small bouquets of mixed  
flowers. Mr. W. H. Geddes, Free-  
man, brother of the groom, was  
best man, while Messrs. James  
Mackie and Allan Poole ushered.

The reception was held at the  
home of the bride's parents, 81  
Paton Street, with 65 guests pre-  
sent. Receiving were the bride's  
mother in a black and white dress  
with black accessories and a cor-  
sage of pink roses. The groom's  
mother wore rose with black ac-  
cessories and a corsage of pink  
roses.

Immediately following the re-  
ception the happy couple left on a  
short honeymoon trip to Toronto.  
For travelling the bride wore a  
blue pin striped dressmaker suit  
with a squirrel neckpiece and black  
accessories. Her corsage was of  
yellow roses. On their return Mr.  
and Mrs. Geddes will reside on  
Lincoln Avenue, Beamsville.

## TRINITY BABY BAND

The Annual Baby Band Party of  
Trinity United Church which is af-  
filiated with the Evening Auxiliary  
and Women's Missionary Society  
was held at Trinity Hall on Friday  
afternoon, November 28th, under  
the co-sponsorship of Mrs. F. Little,  
Mrs. C. Mote and Mrs. J. Durham.

A large attendance of mothers  
and their children enjoyed the col-  
ored lantern slides telling the story  
of "The Pennies See the World."

Also taking part were Rev. W. J.  
and Mrs. Watt, Mrs. G. Tennant,  
Mrs. D. Macintosh, Mrs. J. Lawson,  
Miss R. Walker, Miss D. Wilkins  
and Miss B. Graham. A social time  
followed with refreshments served  
to the mothers and children.

The woman's point of view gets  
its share of attention on CFRB  
each week. Everything of interest  
to women is given expert treatment  
... another phase of this station's

## SPORTOLOGY

(By Donce Livingston, Sportologist)

LOOK THEM OVER TOMORROW NIGHT—FRUIT BELT fans and fanatics will have their first opportunity tomorrow (Friday) night of looking over the 1947 edition of the PEACH KINGS. To date in their workbooks they look like they will be a right smart aggregation come time to enter the O.H.A. group play-offs. Coaches POP McVICAR and FATHER O'DONNELL are quite satisfied with their showing to date. What the next three weeks bring forth is something else again. OLD POP will see 22 men tomorrow night. Of course this squad cannot be carried all season. It will be cut down some as only 12 men can be uniformed for an O.H.A. game. THOROLD will be the opposition this trip and they are a long way from being a set-up outfit, in fact down in the paper will show they have high hopes of winning the Intermediate 'B' championship. A week from tomorrow night GEORGETOWN, the team that was beaten out in the finals for the championship last year by PRESTON will be the opposition. Tomorrow night OLD POP will see the following players:

GOAL—Robertson, Grimsby; MacMillan, Grimsby; Harvey, Beamsville; Kase, Dundas.

DEFENCE—Hann, Burlington Beach; Reid, Beamsville; Warner, Grimsby; Oakes, Ancaster.

FORWARDS—Maitland and Hale of Fruitland; Luk, Stony Creek; Tallman, Beamsville; Kemp, Bartonville; Hutchison, VanWagoner's Beach; Miller, Hill, Mason, Blanchard, Craig, Grimsby; Whitfield, Winona; McKenna, Burlington; Edmunds, Ancaster.

One or two of these boys may not be in uniform tomorrow night owing to injuries received in practice but they will certainly be back on the job a week hence.

RED FARRELL STILL IN ACTION—Funny thing about hockey players, they just cannot get away from the game. Like sentimental opera singers they retire and retire but they never actually do it. An old Grimsby hockey product RED FARRELL, now of Barrie, has retired from the game 15 times since he actually hung up his tack yet I see by the daily press where he was back in action again on Saturday night coaching the BARRIE Flyers against the Falcons in St. Catharines. That was a ding-dong battle, too, winding up in a three-all tie at the end of regulation time. RED tied the game up in the last six seconds by using six forwards. In the overtime the boys from the north went haywire and scored five goals. RED himself was one of the best defencemen that ever went out of the FRUIT BELT and he received all his early training on GRIMSBY ARENA ice. Apparently he is as good a coach as he was a player. More luck to him.

UNDER THE MICROSCOPE—OLD TOM sez, "I never seed so many would-be hockey players in all me life" . . . CATFISH McGUFFIN wants to know how McVICAR rates that name "MR." He has become a gentleman since he ceased to be a professional slaughtering defenceman. . . "Good Ice In Any Weather," that has been the slogan of the ARENA for a quarter of a century, and believe you me, this year is no exception to the rule. No arena in Canada has a finer or keener sheet of congealed water than the Livingston Avenue frigidaire. Manager MARR has every right in the world to crow about it. . . Had a funny horse complex last week. Walked into Joe's Restaurant and met JOCKEY SOUTHWARD and his wife and of course the Jock immediately started to extol the virtues of the running horse. Next day I walked into the Village Inn and I met CHARLIE and GLADYS BARLOW from Grimsby and they started to extol the wonders of the harness horse. I am between two fires. Guess I'll buy a goat. . . I see from the daily press that the dumbs and the dumbettes of Canada played \$429,000,000 through the pari-mutual machines on Canadian race tracks (that's hop-headed running tracks) this past season. Sorry to relate a lot of that jackaroo came out of the pockets of Grimsby punters. You know the old story about the Sloop and his Simons are soon separated. . .

A WEEK WITH RIP VAN WINKLE—They don't win too many games but they have a lot of fun. They are even feuding among themselves. The PIN TWISTERS, that is. Last week they split even with the IRON DUKES and the EMMERMAN boys, Keith and Wilbert had their own private dust. Keith rolled 294-294-291 for a 789 triple, while Wilbert trundled 231-216-269 for a triple 716. PAPA ZED got lost in the shuffle, while father-in-law GEORGE SILLIS went hunting for another old elm tree to cut down, and FOX GRANDPA SHACKLETON hasn't figured it all out yet. . . FIREMEN have developed into a one-man team and he was good enough to corral three points for the smoke eaters from the EAST ENDERS. With a 258-273-294 Reg Lawson had a 741 triple and that was all that was needed. . . Page "DOC" MATHER, Lincoln's Medical Officer of Health. The NORTON RASH has broke out again. It is contagious. If it spreads further than the NORTON family, then PEACH QUEENS league will be able to ally a team that will lick the world. First part of the season some one member of the NORTON clan kept piling up scores that had LITTLE WHIZZER going around in circles. Then all of a sudden they all flopped. So much so they looked like flounders. Then last week RED SMOKE NORTON McBRIDE came to the rescue, Holy Toledo. When a female will trundle 283-337-298 for a grand triple of 918 it is a wonderful piece of business and a great piece of advertising for the finest women's bowling league in Canada and a mighty fine tribute to The Bowl-away for the condition in which they keep their alleys and bowls. PRINCESS SOUTHWARD was ridding the range again with 562. HELEN SNELL with two games over 200 and a 563; ELAINE HARRISON with a 235 game. That was what the VEDETTE outfit were doing. But with it all, it was not good enough. GOLDEN DROPS with their whole team bowling consistently just took two games away from them. That BYFORD girl, that MARTIN lassie and that GLEDHILL femme were rolling games over the 200 mark and all the rest of the team were shooting higher scores than the VEDETTE outfit. Which all goes to prove that one beer does not make a drunk. . . That VIMY team, headed by BUD ELMER never seem to make any big scores yet they totalling enough at the end of each evening to win the majority of points. Last week they took three points off the VETERANS but to look over their individual scores you would wonder how they did it. . . Poor OLD JERRY. No rest for the working man. Comes home from a hard day of struggling to earn an honest dollar. Nobody home, Kitchen is cold. Goes at and gets his own supper. Probably enjoyed it better than otherwise. Reads the paper and decides to go to bed. Just nicely snuggled in the covers when the front door flies open and in comes ARNETTE. Poor Jerry never had a wink of sleep for four hours. SOUTH HAVENS just clipped the VALIANTS for three games. Out of their slump again. Another NORTON, the Red Head from Mortgage Avenue, paced the works ably abetted and aided by NAN MILLER'S 204, which was the Christmas surprise package. Then of course the pretty little JOHNSON woman comes along with a 201. First thing ARNETTE knows she is going to get that team of hers whipped into shape, because when they licked the VALIANTS they performed no mean feat. Roll over Jerry, you done it yourself. . .

MOTHER, PIN A BURDOCK ON ME—I survived the tornado. I knew it would come so fortified myself by having a portable cyclone cellar alongside my desk. The big storm broke Friday morning, about 12 hours later than I expected but that was because he was away on a business trip and did not see the marked copy of Sportology that his loving spouse had laid on his desk until the wee hours in the morning. But brother, when he stormed this Sanctum Sanctorum about 10 a.m. on Friday all the prisms, bookshelves and roustabouts hit for the wide open spaces. OLD POP McVicar was on the rampage. Where in the 44 1/4 745824, 4723 1/2 and all the rest of it did I get the right to call him M I S T E R. He was no MISTER. He was just OLD POP. And as OLD POP I let him pop and pop and pop until he got tired popping, then I told him that he was still the greatest hockey coach in Ontario whether his name was MISTER, MRS. SUSIE Q. or COCK-ROACH. Names don't mean anything. It is what is produced behind the name. And right here and now let me warble in your ear that OLD POP is going to produce. The long drink of water that 23 years ago Renfrew presented to Grimsby is going to ice a hockey team that is going some place and I do not mean Grimsby. The double barrelled toothpick was a wonderful exponent of the hickory stick and rubber disc and he is incantating that some spirit and knowledge into the hand of youngsters that he has at his command. PEACH KINGS are going

(Continued on Page 11)

Feminine Fists Fly  
In Free-For-All Fight

Ann Sothorn, who in her role of Maile has proved that she can hold her own in any emergency utilizes her fists in one of the screen's roughest and toughest feminine scraps in "Up Goes Maile," play at the Romy Theatre tonight and tomorrow night.

Miss Sothorn's opponent in the tussle is Hillary Brooke, playing her rival for the love of George Murphy. The two ladies went at it hammer and tongs, with no holds barred and with plenty of hair-pulling, kicking and even biting.

Not since the memorable Russell-Paulette Goldard match of "The Women" has there been so realistic a women's free-for-all photographed for a picture.

## NON-EATERS' ZERO HOUR

Eleven o'clock in the morning may be the "zero hour" for those who are dab-in-grab breakfast eaters, warns the Department of National Health and Welfare, Ottawa. "You can't work like a horse and eat like a bird," declares a departmental nutrition expert. "A good breakfast, which includes at least fruit, wholegrain cereal and milk, won't let you down in mid-morning." The department urges all workers to start the day right on a substantial breakfast.

# SPORTOLOGY

(Continued from Page 10)

to write history again and it won't make a dime's worth of difference whether he is MISTER or OLD POP, the product of the brain will tell its own story. See the PEACH KINGS in action at the ARENA tomorrow night against THOROLD, a team that is far from being a set-up. It will be a real game, even it is only an exhibition tilt. It will give you a chance to look the 1947 KINGS over. After you have taken in the hockey squabble then drift over to the High School and take in the Lions Carnival. You may not get as much for your money but you will have a lot of fun and help a good cause.

**MIRACLES DO HAPPEN**—Take a look at the standings to date in the MEN'S BOWLING league. What do you see? The PEACH KINGS team is on the top rung. A year ago there were no rungs in the ladder where they were standing. Just a case of improvement. From checking their scores they look like a hickory limb to crack before the April showers come. . . . There is a variance of 12 points between the KINGS at the top and the FIREMEN at the bottom, but that doesn't make much difference because CHIEF LePAGE has plenty of rungs on his ladders for them to climb. . . . In the PEACH QUEEN'S league that VIMY team is sitting pretty solid at the top with an eight point lead over LITTLE MARY NORTON and her VALLANT team and the same goes for RED SMOKE and the VEDETTE outfit and the GOLDEN DROPS. There is a difference of 18 points between the BUD ELMER crew and the JOHN HALE team. Too much. . . . BILL HAND and his PONY EXPRESS riders had 10 games over 200 and naturally galloped away from the GENERALS for three games. A little explanation here. GENERALS are bowling in good form but with their king-pin HAMMY FOX on the sidelines with a bum ankle they just have not the leadership. . . . There is something radically wrong with that WONDERS team, too. JERRY LUEY is on the job but they just do not seem to be getting anywhere. LUMBER KINGS took them three to one the other night. . . . There is no joy in Calisto. GAS RAIN and his GAS HOUSES took a terrible lacing on Monday night. The ZIMMERMAN Clan were responsible. The THREE KIMS had seven games over 200 and YOUNG MacINTOSH came through with a 370 game to top a 746 triple. Poor Raha. . . . PONY EXPRESS hog-tied the PIRATES 4-0. No wonder LITTLE WHEELER is not feeling good. . . . Oh, well, Christmas is coming.

**HERBIE CALLING FOR HELP**—That peppery little secretary of the Legion and business manager of the PEACH KINGS, THROCKMORTON H. JARVIS is issuing a call for help to the fans of the district. As you know hockey players cannot walk from Grimsby to other towns and then go on the ice and play a real game. They must have conveyances and as a result Manager Jarvis is appealing to the fans to offer the loan of their cars to convey players to outside games. If you would like to help the KINGS on their thorny path to a championship just call HERBIE a Mr. Bel's ding-dong system at 40 in the daytime and 540 in the evening and offer to help transport the boys about the countryside. You will be going to the games anyway so why not lug a couple of players along with you. Thanks a million!

**KIDS LEAGUE WILL OPERATE**—The GRIMSBY LIONS have once more contracted for the use of the Arena ice for Saturday mornings and the boys of Grimsby are indeed fortunate that the MINATURE NATIONAL HOCKEY LEAGUE that operated so well last winter will again be in operation. This winter is of the opinion that if the local Lions did nothing else all year long—and they do plenty for licity—save this one activity for the little fellows, that this alone would the betterment of the town—most of it very quietly and with no pub-deserve the support of Mr. and Mrs. John Citizen.

**FATHER O'DONNELL** will again be in charge of this activity and this year he will be assisted by KEN GRIFFITH and a number of other gentlemen who will take a real ACTIVE part in this very important activity.

This year it is contemplated operating all the various team on a weight basis and it is felt that this will assist a great deal in having well balanced teams.

This Saturday morning there will be free skating at the Arena—NO HOCKEY STICKS OR PUCKS—please. The following Saturday morning, it is hoped to be able to utilize the time available for initial practices of the various teams and then if all goes well the League will commence its regular schedule on Saturday morning, December 21.

Absolutely no playing without having signed a certificate and also having it signed in ink by one of your parents. Certificates will be available at the school towards the end of next week.

## TOO HONEST FOR A CONTRACTOR

With orders from prefabricated houses piling up this year at the Precision-Built Homes Corp. of Trenton, N.J., President F. Vaux Wilson, Jr., ran this advertisement in the newspaper:

"In 1939 a Precision-Built Home (without land) was selling at \$3750, complete with heating, plumbing and lighting, ready for occupancy. Materials and labor costs advanced during the war. Early this year, this same house was on display priced around \$5850. The house was still an excellent value.

"But materials and labor costs continue to advance. Today, there is no magic by which we can build this \$2750 house to sell at less than \$7500. And at \$7500 we know it is not a good value. Perhaps you'd be willing to pay that price under present conditions. But when building prices come down again, you'd be the owner of a home for which you had paid far too much money. And we would not be the winners. We would lose your confidence and good will.

"We're going to wait out the present situation. We're not going to sell overpriced houses. We'll be back on the market—the day we again know that the prices of Precision-Built Homes are the right prices."

## Trunking

A boy and girl are "trunking." We didn't know what that meant but were informed that it refers to collecting things with matrimony in view.

They complained that in the shops they couldn't find sheets and soap and such things that they wanted to "trunk."

All they could find in the shops was diamonds, mink coats and the like.

## An Island That Is Snakeless

Anticosti, a large island off the mouth of the St. Lawrence River, is over a hundred and twenty miles long and thirty or more miles wide. The island is rocky, heavily forested and, in spite of its serpentless condition, it remains almost uninhabited. It was once the property of Henri Menier, a wealthy chocolate manufacturer of France, but is now owned by a large pulp and paper company.

For some reason Anticosti has neither reptiles nor amphibians of any kind, no snakes, frogs or toads. Several varieties of these creatures are found across the water on both the north and south shores of the St. Lawrence, but somehow they have never established themselves on the island itself.

During the Menier regime an attempt was made to supply this

lack by importing a large number of frogs to the island ponds. It was hoped that, if they became established there they might help diminish the swarms of flies that plague the Anticosti forests during the summer. The experiment failed, however, because flocks of black ducks took to devouring all the tadpoles and baby frogs as fast as they appeared until they had exterminated them again.

## THE TOOT THAT TOL OF RAIN

(By JOHN GOULD in Christian Science Monitor)

It was a lot of fun to take a trip down to Boston a few days back, but all the fun won't solace the dismal discovery that train whistles are on the way out. We went down on a Diesel train, and it was sort of our first encounter with a Diesel train. They have them on the main lines up here, too, but we live too far away to hear them whistle, and we haven't been moving around much. It was somewhere south of Portland we first observed the difference and brought ourselves up to date.

I find I have never seen eye-to-eye with the public utilities. We learned in school that a public utility is a utility "fected with the public interest. I never found out if it is affected or effected, and I suppose it would make a difference. Anyway, I have frequently found public service a benevolence open

to doubt.

I heard that I felt that way when people might feel a railroad need not be concerned with the sound of a whistle. I can make the point with steamboats, telephones, electric lights, airplanes, buses, radio stations, and occasionally the girls who take telegrams. But I am now riding to Boston on a Diesel and shall speak only of train whistles.

(I generalize and then become specific only for the purposes of this denurrer. I can make the point with steamboats, telephones, electric lights, airplanes, buses, radio stations, and occasionally the girls who take telegrams. But I am now riding to Boston on a Diesel and shall speak only of train whistles.)

The whistle on this Diesel did not sound like a train whistle. It didn't sound like a boat, a foghorn, a lowing cow, a gale of wind, the tramp of finality. It is a special toot all its own. Probably expert whistle-testers worked long hours in echoing laboratories to produce it. The vibrations per second are probably most effective upward at the required distance, and will most suitably warn a crossing-cropper or a track-trespasser under modern transportation speeds of a mile every 45 seconds.

But it is still not a train whistle. It is not the old steam whoop the country grew up with—the sound that waited on blizzard nights, and shrieked on frosty mornings, and vibrated up from the valleys when the blistering sun shimmered the wheatfields. It is not the whistle that, when we heard it, made us children thrust our arms like pistons and chug around the dooryard and cry, "Crowley's Junction—Change for Leeds, Livermore, Jay, Wilton and Farmington!"

Our local line long ago gave up passenger service and put on a bus, but the freight still wind up along the river and we hear the old whistles. America, the land the railroads built, knows how our whistles sound exactly as well as if everyone lived here on the Ridge with us. We sometimes say, "Train sounds like rain tonight." And then it rains. The old steam whistle is reliable. So it was a shock to find the Interstate Commerce Commission, or the Public Utilities Commission, or anybody sworn to protect the public interest would allow the railroads to trifle. I can't think of an abomination equal to this. I was "let down." An old reliable had

## Take a Deep Breath

(Fotobid Camera & Instrument Corp. Photo)

By the time you can say "Take a deep breath and hold it," an X-ray picture of the lung can be taken on this modern photo-diagnostic device. Chest X-ray examinations are advocated by tuberculous specialists, supported by the sale of Christmas Books, to find unknown lesions of tuberculosis.

failed me. The genius of high-speed transportation was a "bust". All else on this Boston trip was lovely—but that whistle discords the whole thing.

I believe completely that men who can make powerful injection motors with very high thermal efficiency, to pull hundred-car trains loaded over the mountains, can also make whistles to blow any noise they choose. Any noise but that we know and love is indifference to the public. We, the people, have granted a franchise and are stuck again. I'm glad I live up on a branch line—a side line and a jerk line. A pack-country line where the railroad uses its oldest and obsolete locomotives until they puff themselves to pieces with doddering senility.

Our wheezing old steam engines at least can blow with the public interest. And when the newest of the Diesels is the oldest on the system and comes up here to blow for us, I shall thankfully be too old myself to care. To the pleasures of rural life, add this: When Henry takes the curve by the pulp mill, and pulls the whistle cord as of yore, we can still tell, up here, if it's going to rain.

### COMMUNICABLE DISEASE TERMS

Many terms used in connection with control of communicable diseases are not understood by non-medical people. For the benefit of parents and educational authorities, the following definitions have been drawn up by a committee of medical experts:

**CONTACT**—anyone so exposed to a person suffering from a communicable disease as to be in danger of picking up the infection. (This includes not only physical contact, but contact with the soiled linen, etc., of the sufferer).

**CARRIER**—one who has, and so may transmit, a communicable disease, but who has no symptoms of the disease itself.

**IMMUNITY**—known safety from a specific disease (as in the case of adequate protection by inoculation or vaccination).

**ISOLATION**—segregation of persons suffering from a communicable disease, or of known carriers of disease, so that they may not pass on the organisms.

**QUARANTINE**—confinement to home, during the period of "incubation" (development) of a communicable disease, of persons known to have been exposed to a disease source.

**SUSCEPTIBILITY**—or **NON-IMMUNITY**—liability to a communicable disease (as in the case of a person who has not been found to have a natural or artificial immunity from that disease).

### A UNIQUE MAP

A map of Southern Alberta as it looks hundreds and thousands of feet below the surface is being prepared by two geologists, J. E. Worsfold of Oklahoma University, and R. B. MacLeod, University of Saskatchewan.

For more than two months the geologists have been in the Taber Area, examining cores of many wells while doing work on stratigraphy of cores for the Dominion Government Geological Survey.

In their work the geologists determine the age and type of rocks penetrated by the bits, and from this they are able to draw a rough sketch of the hills and valleys in the different layers of rock.

### IT HAD SALES RESISTANCE

A drunk shot that he could tell the bartender any drink the

perhaps, eggs and cheese, you may rest assured that your family is well fed and has a chance for optimal health. The department urges shoppers to follow "Canada's Food Rules" for healthful diet.

### UNDER-NOURISHMENT

Many common ailments are due to under-nourishment, declares a food authority of the Department of National Health and Welfare, Ottawa. "Too often," says the expert, "illness is blamed on something eaten, when it may be due to something which should have been

but was not included in the diet at all. Of such ailments are headaches, stomach-aches and fatigue." Nutrition authorities say that such healthful foods as milk, fruit, vegetables and meat or meat alternates are essential to the daily diet.

### PHYSICAL CHECK-UPS

An improvement on the old saying "An apple a day keeps the doctor away" is suggested by the Department of National Health and Welfare. "Get a doctor's OK and keep sickness away" is better, say the health men. They advocate fre-

quent consultations with the family physician to stave off sickness, and to give timely warning of possible trouble. "Don't wait until you are sick to make your doctor's acquaintance" advise the health experts.

Maybe life would be a song and a dance, if one didn't always have to pay the fiddler.

Things were harder in the old days. There wasn't any automatic record changer on the old horn-type musical instrument.

# CONTINUATIONS

From Page One

**PROSECUTIONS ARE** have formed a habit of visiting Grimsby on Sunday nights and not only making a nuisance of themselves, but by their actions of upsetting street signs, turning around parking signs, etc., only prove that there is idleness in their families somewhere.

They, like the bicycle riders, can spot a blue uniform coming and as a consequence Chief Turner has not as yet been able to apprehend any of these young imbeciles.

Just a word of warning—Some Sunday night a couple of gentlemen who do not look any more like cops than John L. Lewis looks like a human being will step up to them in the midst of their idiotic fun and then prosecutions will follow.

## NEW TYPE SPRAY GUN

On interviewing Mr. Bell he said that he has used a number of different makes in his past spraying experience and that this Windmaster gun is by far the best that he has ever used.

Some of the distinct features claimed by the manufacturer of this gun are, first, greater dis-

tance, better penetrating fog and a more thorough job with less material. They are manufactured in single nozzles, controlled triple-opening nozzles and multiple opening nozzles which rounds out a complete line of spray gun needs.

A sample gun will be on display at the show rooms for your inspection. Watch this name Windmaster. Use a Windmaster for one day and you will never use any other, it will be a must in your future spray equipment, is the claim of the distributors.

## POSTAL INFORMATION

Mail posted for LOCAL DELIVERY, when insufficiently addressed, is not given Directory Service, but is treated as undeliverable.

For a Merry Christmas Please Follow These Dates:

United States (especially parcels to allow for Customs examination) Before Dec. 9.

British Columbia, before Dec. 14.

Alberta and Saskatchewan, before Dec. 15.

Manitoba and Maritime Provinces, before Dec. 18.

Ontario and Quebec, before Dec.

17. Local Delivery—Before Dec. 18, if posted later delivery by Christmas not guaranteed.

LETTERS: For local delivery—3 cents first ounce; 1 cent each additional ounce.

POST CARDS: Canada and United States—3 cents each.

## SPRAY CALENDARS

composed of both Provincial and Dominion entomologists, plant pathologists and horticulturists reviews the control work on insect pests and plant diseases and revises the protection calendars for fruit and vegetables. To avoid having to make two applications of two different chemicals where insect and diseases should be controlled at the same time, it is necessary to work out combinations of materials which will mix together as a dust or in the spray tank and each remain effective. For example, when dusting or spraying for potato insects with an insecticide one should include at the same time an effective fungicide to control blight. These two chemicals must work together. So must the entomologists and plant pathologists in preparing the control programs.

Five different protection calendars will be printed for 1947 by the Ontario Fruits Branch, for fruit and vegetable growers. These will be: Apple Spray Calendar; Apple Spray Calendar for Eastern Ontario; Pears and Stone Fruits; Small Fruits; and Vegetable Protection Calendar.

These should be available by January and may be obtained from various Department of Agriculture offices, the Ontario Fruit Branch, Toronto, the Vineland Experimental Station, and the Entomology and Botany Department, O.A.C., Guelph. Fruit growers, when writing for calendars, are advised to specify kinds of fruit grown. They should have their names added to a list for spray service letters at their nearest agricultural representative's office. Fruit and vegetable calendar for home orchards and gardens are available.

## CHAS. BROMLEY

himself a job as a "cub" reporter on the Evening Standard of London, England. That he was a good newspaperman was proved by the fact that when The Standard decided to send a correspondent to cover the Russian-Japanese war, Charlie Bromley was picked for the assignment.

Always of an engineering turn of mind, he decided after the cessation of hostilities to come to Canada and try and put his constructive ideas to work. Through the good graces of the late Rev. John Muir, of the old St. John's Presbyterian church, Charlie and Mrs. Bromley and the three little Bromleys landed in Grimsby in the spring of 1906. Shortly afterward he went to work for the late Col. Farmer, on his fruit farm, just east of Park Road, on No. 8 Highway. He stayed there for some years, all the time studying engineering. He finally took his course with the Institute of Engineers of London, England.

The family then moved into Grimsby and Charlie became Town Engineer and eventually Town Engineer and Clerk.

It was under his supervision that the first paved street in Grimsby was constructed, Mountain Street. That street was laid in 1914, at the same time that the present Number Two Highway between Hamilton and Toronto was being laid. It was the first concrete paved street in Ontario in a town the size of Grimsby.

He was the engineer that rebuilt the present waterworks system. The first electric centrifugal pumps were installed under his guidance and the present filtration system was his idea. He put the first big pier out into the lake and had, then, government engineers listened to Charlie Bromley a lot of needless expense in the years to come would have been averted.

Always a man of public spirit, with a thought for his fellow man he did not gain too many of this world's goods, but in his own words, five weeks ago, in the Independent office, "I never wanted too much. I always tried to help the other fellow. I always tried to do my job as it should be done. I have no kick coming."

After leaving the employ of the Town of Grimsby he was employed on several engineering projects.

## New Commissioner

GEORGEY MILLS

The Honourable Dana Porter announced last week the appointment of Mr. Geoffrey Mills as Trade and Industrial Commissioner at Ontario House, London, England. He has replaced Mr. F. J. Lyle who, after two years in London, is now Director of Trade & Industry in the Department of Planning and Development at Queen's Park.

He was a member of Union Lodge, No. 7, A.F. & A.M., Grimsby; The Independent Order of Foresters and the United Church.

Funeral services under the auspices of the Masonic Order will be held at the Stonehouse Funeral Home, on Friday afternoon, at 2:30 p.m. Rev. W. J. Watt, officiating.

Interment will be in Queen's Lawn cemetery.

## Rapid Production

A firm at Akron in Ohio, U.S.A., has invented a new automatic machine which makes a car tire every two minutes. Only three people are required to work this machine which has a production rate nearly double that of any semi-automatic machine and five times that of hand-made tire methods.

## Plastic Windows

One of the newest uses of plastics is in the making of church windows, and it is possible that it may replace the stained glass that has decorated our churches and cathedrals for centuries past.

Religious figures are being embossed on plastic materials, but whether the colors will stand the wear of centuries like those of the medieval stained-glass artists remains to be seen.

## Naming The Baby

Many of the names given to African children have a meaning.

If you should meet a boy called Nura, you could guess that he was born in the time of drought, for Nura means "hunger." Sometimes you hear a girl called Cip, which means "a gift." It is good when a baby has been welcomed as a gift into the home, isn't it? Although sometimes people are named after their grandparents or other relatives, all sorts of strange names, like Dangereux, which means, "Herd of Zebras," are also given. Then there are tribal names like Soko and Shumba, meaning "Monkey and Lion."

Often, when an African grows up, he adopts an English word as a name. So he might proudly call himself Ticky (threepence), Sixpence, Shilling, Milk, Kerosene, Bicycle, Geography. Because the names of English boys and girls are fancied, you may meet several Roberts, Lancets, Janets and Rosemarys.

Usually, when an African is enrolled as a Salvation Army Soldier, he takes a new name. These are often Bible names such as Moses, Elijah, David, Matthew, Mary, Ruth and Dorcas. It helps them to take such names—the names of God's great men and women.

## SUNSHINE OILS

Parents are reminded by the Department of National Health and Welfare, Ottawa, that this is the period of the year for starting children on Cod Liver Oil again. Without sunshine or fish liver oil, healthy bone and tooth development is not possible, say the health authorities. The use of fish liver oils for children particularly in winter is recommended in the booklet "Canada's Food Rules," available through official channels.

It's hard for our earning capacity to keep up with our capacity for yearning.

## New Car Ferry To Be Operated By C.N.R.

THE world's largest ice-breaking car ferry, the Abegweit, built for the Canadian Government to be operated by the Canadian National Railways in the Prince Edward Island service between Cape Tormentine, N.B., and Port Borden, P.E.I., was launched recently at the Marlin Industries shipbuilding yards at Sorel, Que. The new ferry, when completed, will be the most modern and powerful afloat.

Abegweit will be considerably larger than any ship already built for this service, 372½ feet long, 61 feet wide and having a 7,000 gross tonnage. A five-deck vessel of all welded steel plate construction, she will accommodate 960 passengers, 60 automobiles and 19 railway cars. Her speed will be 16½ knots.

Eight 1,500 horsepower diesel-electric generating units will power four motors, each operating a propeller, two forward and two astern. The blades of the propellers, which are 18 feet in diameter, are made of a heavy thickness of cast nickel steel to withstand the additional heavy work as ice choppers. The four wheels of each propeller are blind on the hub and are adjustable in pitch. Each can be justly replaced.

Indivern in every way, the Abegweit will be completely equipped with radar and ship-to-shore telephones. The propellers will be directly driven by four engine-control-operated in the pilot house. Tenders to the engine room will be by car ferry's crew. The new, powerful, streamlined

car ferry, which will go into Canadian National Railways service when the work on its luxurious and up-to-date passenger accommodation is completed,

is shown in the top photograph immediately after the launching. In the lower picture, the Abegweit is seen just before she was lowered to the water.

## Tree Crashes On Roof Of Beach Home

High winds last week and over the weekend caused considerable damage in the district. On Thursday morning the wind caught the tall smokestack on the United Distillers plant just right and it crashed to the ground. Fortunately it fell clear of all other buildings and created no damage.

On Sunday night a big tree was blown down at Grimsby Beach and it crashed on to the roof of the residence of Provincial Constable Wm. Gilling causing considerable damage but luckily no one in the home was injured and electric light bulbs were jarred loose from the ceilings, pictures knocked from the walls and dishes in the kitchen broken.

Other damage of a minor nature was caused throughout the district.

Winter has its dreary side, but at least a fellow isn't molested with poison ivy.

The unloaded gun seems to be about as dangerous as a two-gun man.

**THE  
ALEXANDER  
HARDWARE  
Company, Limited**

Hamilton — Ontario

(By RICHES)

Seems a trifle queer to be without my able partner this week, however will attempt to struggle through alone and hope that all our dear readers will be satisfied with the effort.

### Special Events Department:

As everyone no doubt remembers all too vividly the special event of the week was last Friday's Graduation Exercises. As the annual affair was one of major importance in the community as well as in the H.S. there is a well-written and interesting account of the big C. elsewhere in this fine newspaper (probably on page one). It is written by one Arthur J. Brydon, and that explains his absence from this column.

### Sports Department:

**Football:**  
Although there's only 16 more shopping days until Christmas, here's the article on the Junior Football Team which we promised last week. Actually there were two teams; one a little heavier than the other, which played 2 games with Ridley College and lost one. This first junior squad was made up of boys around 140 lbs. and carried a few of the lighter senior players. However the second team,

## NEW DAIS CONSTRUCTED FOR WARDEN OF COUNTY

Windows Will Have Drapes — County Building Will Soon Resemble Buckingham Palace — County Rate Still Goes Up.

Workmen in the county building at St. Catharines are busy completing a new warden's dais in the council chambers as part of a general scheme to renovate the chambers. The dais, finished in mahogany plywood, is simple in design in contrast to the ornate architecture of the previous dais. It has a raised centre portion and two lower side desks, attractively blended into one unit. The wall behind the dais will be faced with a screen of the same wood.

The large council chamber windows are also being prepared for hanging of drapes, County Clerk W. H. Millward said. It is expected that the dais will be completed in time for the December meeting of county council.

made up of boys averaging 120 lbs. won both games they played with Ridley College by scores of 19-0 and 7-6. As the scores indicate they did well for themselves, and the boys on this team will eventually be the future football stars of G.H.S.

The line-up of the team follows: Snap—Teddy Robertson; Inside—Scott, Phelps; Middle—Beitner, Alfred Buckenham; Outside—Curly, R. Farrell; Flying Wing—Clare; Halves—Tokwa, Scrivener, Millyard; Quarter—I. Levine; Alternates—Q. McPherson, Pogachar, E. Fisher, Baisley.

**Basketball:**  
Boy's Basketball is getting under way in fine style this week. Coach Awde is drilling his boys in after-school practice sessions and expects to have both a Junior and Senior squad of fine skill and marksmanship. Rumour has it that the Coach is planning an exhibition game with the Toronto Huskies of pro-basketball fame. Think we could win, lads?

### Special Feature Department:

**Ex-Students of the Week:**  
As you have probably noticed from the title our S.O.T.W. feature varies a little this week. Instead of selecting a student of the school, who distinguishes himself or herself in some way, for the S.O.T.W., we thought it fitting, as last Friday was Commencement night, to honour the two graduates who, we think, deserve the highest praise, for their scholastic records of the past year at dear old G.H.S.

Both close friends and now furthering their education at the University of Toronto, Ajax Engineering Division, these two lads have unblemished records at Grimsby High. Their names are Douglas Bedford and Ian Marr.

At the Graduation Exercises Doug and Ian both received their Secondary School Honour Graduation Diplomas. In addition Doug received the Grimsby Lions Club Medal and the I.O.D.E. Progress Award for Grade XIII, while Ian received two Merchants' Shield Awards for General Proficiency and Mathematics. We think they deserve a lot of credit for their achievements at the High School, and wish them equal success in their future careers.

**Joke of the Week:**  
This week's Joke of the Week taken the form of a profound statement, overheard in the library last week. One wise and witty character observed that, "Basketball is the only game in the world where a player can dribble and not get his shirt wet." If you don't think it's funny see Don MacAlone—it's his joke.

**Sidelights:**  
—The reason why many of the classrooms were a trifle chilly on Monday was not on account of the coal shortage. It seems there was a little mechanical trouble with the automatic stoker on the furnace, however, Mr. Haywood soon had everything under control, and we took off our earmuffs.

—An unfortunate accident took place some weeks ago in which Don MacAlone was unlucky enough to collide nose to gently with large "Muscles" Ruse. Some days after, our unfortunate friend put in his first appearance back at school sporting a pair of crutches.

This last week, though, "Mac" has the cast off his leg, and, having discarded both crutches and cane, is again walking on both feet. Don't let it happen again. Mac, you look better this way.

**Coming Events:**  
—Executive Pres. Jewson in an interview regarding the At Home on December 20th stated the following interesting facts: (1) Wally Miller's orchestra, a ten-piece organization, has been engaged for the big night; (2) Admission, at \$1.75 per couple for students and \$2.00 per couple for others, by invitation only; (3) Dress is formal for the ladies and optional for the men; (4) Dancing from 9-1 E.S.T. (5) This dance is open to students of Grades X-XIII inclusive.

—The Annual Yuletide Examinations are only eight days away. Ah, yes, the Merry Christmas sea-

son.  
—Tomorrow evening, at the G.H.S. auditorium the Lions held their indoor Carnival.

—Peach Kings vs. Thorold at the Arena tomorrow at 8.30 p.m.  
Well that's all for this week, children, and if my little chum Arthur J. doesn't get snobbish over his big front-page spread and forget to come back to the back page with me, we'll tell you lots more next Thursday.

### Vanished Lake

A lake in Queensland has mysteriously disappeared. It is Lake Nooga, about 300 miles north of Brisbane, which until recently was an expanse of water 400 acres in area. Then all the water vanished, and now all that is left in the bed of the lake is a strip of mud about 100 yards long and 20 yards wide.

One explanation of Nooga's drying up is that rumblings were heard near the lake some time ago and these may have been a subterranean disturbance which opened a fissure through which the water drained away.

### VITAMIN C

Lack of Vitamin C in the diet affects the whole body, for, say health experts in the Department of National Health and Welfare, Ottawa, this Vitamin is required to help hold body cells together, just as mortar is needed to keep the bricks of a house together. For proper intake of Vitamin C, nutrition authorities recommend vegetables, at this time of year, as the best and most inexpensive source.

The man who is in love with himself is seldom disappointed in his love.

When it comes to changing her mind, the average woman is a quick change artist.

Playing cards were once used for money, says a writer. But now they are used to get a fellow's money.

## BREVITIES

### EVENTS and TOPICS of the WEEK in TABLOID . . . . .

Lions Carnival tomorrow night.

A wee bit brisk Monday morning. At that the thermometer only dropped to 10 above.

A. J. Hayward has the contract for decorating throughout the Webster home on Kewman Ave.

Thorold versus Peach Kings at the Arena tomorrow night. First game of the season. Look the Kings over.

Winona Fruit Growers are offering for sale their fruit shed and office equipment at Winona station for sale by tender in this issue.

Take a look at those beautiful occasional chairs in the Gas Co. window, Canadian Legion have 10 of them that they are giving away on their grand Christmas drawing.

Fire department had a call to the Baptist parsonage on Monday afternoon. Thawing out water pipes in the cellar was the cause of the blaze.

Former army officers in the Grimsby district are interested in the formation of the Hamilton and District Military Institute with a club house in Hamilton.

Clerk and treasurer of Grantham Township for 57 years until his retirement in 1940, during which time he served under five sovereigns, Leonard S. Bessy died Monday night at the home of his daughter, Mrs. J. G. Watson, 12 Chaplin Ave., St. Catharines. He was in his 63rd year.

Born at the old Bessy home-
